Resolutions Adopted by the Advisory Board of the
Department of Public Welfare on the death of

GEORGE H. McCLEAN

George H. McClean, of Springfield, a member of this Board since December 10, 1919, passed away at his home, on September 19, 1929.

We have been in a position to know his unselfish devotion to the work of the Department during these ten years and his genuine interest in the people for whose benefit the Department exists. But most of all, we have realized his unusual spirit of friendliness which went to make up his fine character.

Be it RESOLVED then that the several members of this Board, whose names are signed below, record their appreciation of the association which they have had with him, and on behalf of the Commonwealth record their gratitude for his public service, and we direct the Commissioner of the Department to send to Mrs. McClean and her family this expression of great sympathy for their loss and our assurances that we shall not forget his friendliness and his service.

A. C. RATSHESKY,
JEFFREY R. BRACKETT,
GEORGE CROMPTON,
ADA ELIOT SHEFFIELD,
MARY P. H. SHERBURNE,
RICHARD K. CONANT.

The Commonwealth of Massachusetts

DEPARTMENT OF PUBLIC WELFARE.

RICHARD K. CONANT, *Commissioner.*

To the Honorable Senate and House of Representatives:

The Tenth Annual Report of the Department of Public Welfare, covering the year from December 1, 1928, to November 30, 1929, is herewith respectfully presented.

Members of the Advisory Board of the Department of Public Welfare.

Date of Original Appointment	NAME	Residence	Date of Expiration
December 10, 1919	A. C. Ratshesky	Boston	December 10, 1931
December 10, 1919	Jeffrey R. Brackett	Boston	December 10, 1931
December 10, 1919	George Crompton	Worcester	December 10, 1930
December 10, 1919	*George H. McClean	Springfield	September 19, 1929
December 10, 1919	Mrs. Ada Eliot Sheffield	Cambridge	December 10, 1932
December 10, 1919	Mrs. Mary P. H. Sherburne	Brookline	December 10, 1932
October 9, 1929	John J. O'Connor	Holyoke	December 10, 1930

Divisions of the Department of Public Welfare.

BOSTON.

DIVISION OF AID AND RELIEF: Room 30, State House

Frank W. Goodhue, Director

Miss Flora E. Burton, Supervisor of Social Service

Mrs. Elizabeth F. Moloney, Supervisor of Mothers' Aid

Edward F. Morgan, Supervisor of Settlements

DIVISION OF CHILD GUARDIANSHIP: Room 43, State House

Miss Winifred A. Keneran, Director

DIVISION OF JUVENILE TRAINING: 41 Mt. Vernon Street

Charles M. Davenport, Director

Robert J. Watson, Executive Secretary

Miss Almeda F. Cree, Superintendent, Girls' Parole Branch

John J. Smith, Superintendent, Boys' Parole Branch

SUBDIVISION OF PRIVATE INCORPORATED CHARITIES: Room 37, State House

Miss Caroline J. Cook, Supervisor of Incorporated Charities

Miss Florence G. Dickson, Supervisor of Incorporated Charities

Miss Alice M. McIntire, Supervisor of Incorporated Charities

SUBDIVISION OF HOUSING AND TOWN PLANNING: Room 37, State House

Edward T. Hartman, Visitor to City and Town Planning Boards

SUPERVISION OF BOARDING HOMES FOR THE AGED AND INFIRMARIES: Room 37, State House

Francis Bardwell, Supervising Inspector of Infirmarys

Institutions under the Supervision of the Department of Public Welfare.

State Infirmary, Tewksbury. John H. Nichols, M.D., Superintendent

Massachusetts Hospital School, Canton. John E. Fish, M.D., Superintendent

Lyman School for Boys, Westborough. Charles A. Keeler, Superintendent

Industrial School for Boys, Shirley. George P. Campbell, Superintendent

Industrial School for Girls, Lancaster. Miss Catharine M. Campbell, Superintendent

* Deceased.

PART I.

REPORT OF THE COMMISSIONER OF PUBLIC WELFARE.

The Department of Public Welfare has expended this year \$5,600,000 in service to over 70,000 persons. The great encouragement to our work this year has been the progressive program of Governor Allen, which was introduced with the sentences, "The end of government is the achievement of satisfaction and happiness by our people. No group can be happy in the presence of misery, or suffering, or poverty."

The care of aged persons is one of the most important problems with which we are concerned. New legislation enacted this year, which requires boarding homes for aged persons to be licensed by us, has been put into effect. Already twenty-five boarding homes have been licensed and one hundred fifty-nine more have filed applications. Such supervision over the private care of aged persons is necessary in addition to public care. We hope that it will prevent such disasters as occurred last year, when twenty elderly people in a private home in Dedham were left stranded as a result of the bankruptcy of the proprietor. We hope by co-operation with the building inspection authorities to guard against any fire hazard which may exist, as we do in our inspection of homes for the aged maintained by charitable corporations and as we do in our inspection of city and town infirmaries. The law enables us to require security whenever a contract for life care of an aged person is made.

The Governor's address looked forward to more adequate institutional care for aged persons who need the required hospital treatment, and particularly to more adequate aid by public authorities to aged persons in their own homes. This state and Rhode Island are the only two states which maintain state infirmaries. At our excellent institution at Tewksbury \$995,349 has been expended this year for the care of 2,500 persons. Most of the patients are chronic sick and very many of them are of advanced age. The standards of care at that institution have again been improved this year, with better service, better food and enlargements of the wards. At the seventy-fifth anniversary of the State Infirmary on May 1st of this year, a new building for the care of two hundred men was opened.

At the same time we are encouraging city and town homes (which are being changed over from almshouses to infirmaries in fact as well as in name) to meet the great need for care for elderly chronic sick patients. Cambridge, Haverhill, Brockton, Leominster, Barnstable and Waltham have recently added materially to the bed capacity of their infirmaries, using suitable hospital construction, and other cities are at work upon this problem. These institutions are no longer used in Massachusetts as almshouses to which aged people are sent merely because they are poor. They are reserved for chronic sick patients who need hospital care, and such aged people as can be aided in their own homes are given assistance there.

To raise the standard of adequacy in this form of aid we have set the example to the cities and towns by giving more adequately in the state cases where we have the power to direct the amount, and the cities and towns are as fast and as generously as their circumstances will permit increasing the amount of assistance to aged persons. Our expenditures for Temporary Aid reflect this situation. A large proportion of this appropriation is spent for the care of aged persons and the entire appropriation has increased from \$650,000, in 1926, to \$1,034,000, in 1929.

The survey of crippled children, recommended in the Governor's program, is being successfully carried on. With the funds made available we are engaged on the plan of visiting every crippled child in the state, having a trained orthopedic nurse get the facts which will enable us to report accurately how many are suffering from lack of adequate treatment or education, and to report what, if anything, needs to be done in the way of additional care and treatment. The care and treatment which is given at the State Hospital for Crippled Children at Canton is excellent. Massachusetts is very well equipped with private hospitals and schools for crippled children. Its school systems are beginning to provide special education, and it is probable that there is no necessity here for the building of additional institutions. The survey, however, is revealing many cases where more adequate use of the facilities is possible.

The number of children under the care of the Division of Child Guardianship has increased during the year from 5,807 to 6,135, and the expenditure for the year was \$1,415,811. This is a very large number of children to be provided with foster homes. Institutions are used only for the care of delinquent children, and the three excellent training schools, the Lyman School for Boys at Westborough, the Industrial School for Boys at Shirley, and the Industrial School for Girls at Lancaster, continue to be well managed under the care of their Board of Trustees. Progress has been made at these schools, as a result of the psychiatric examinations which have been set up. Building developments include a new cottage for seventy-five boys at the Lyman School, an addition to the infirmary at the Industrial School for Girls, and an addition to the shop building at the Industrial School for Boys.

The laws relating to dependent, neglected and delinquent children and other children in need of special care are being thoroughly studied and revised by the Child Welfare Commission, which was another important part of the Governor's program.

A new maternity hospital at the State Infirmary was authorized this year and plans for it have been completed.

The training course which was established three years ago continues to be successful this year. Thirty-six workers employed by local boards and private agencies are enrolled.

Five new planning boards have been established and two new places zoned, and this activity has been stimulated by our Division of Town Planning. There are now one hundred twelve planning boards and sixty-five zoned places in the state.

The successful operation of public welfare work requires the service of skilled workers to make thorough investigations and to plan for each child and family under care. As a result of the increased salary ranges we have been able this year to secure and hold trained workers. Only in this way is it possible to improve the underlying conditions in the families with which we deal and to make our work as much as possible preventive of misery and suffering in the next generation.

DUTIES OF THE DEPARTMENT OF PUBLIC WELFARE.

The State Department of Public Welfare has the following principal duties:

1. Supervision over the five state institutions of the Department:
 State Infirmary, Tewksbury.
 Massachusetts Hospital School, Canton.
 Lyman School for Boys, Westborough.
 Industrial School for Boys, Shirley.
 State Industrial School for Girls, Lancaster.
2. Direction of public relief, both indoor and outdoor, given to unsettled persons by cities and towns.
3. Supervision of mothers' aid rendered by cities and towns.
4. Care and maintenance of delinquent, neglected and dependent children coming into the custody of the Department through court commitment or otherwise.
5. Institutional custody and treatment of juvenile offenders committed by the courts to the three State Training Schools, and the care of these children in families when on parole.
6. General supervision of the work of the city and town Planning Boards.
7. Visitation and inspection of private incorporated charitable agencies; investigation of petitions for the incorporation of private charities; and the requirement and reception of annual returns from them.

Among the other supervisory and inspectional duties of the Department may be mentioned the following:

1. Visitation and inspection of city and town infirmaries.
2. Visitation and inspection of the five county training schools.
3. Visitation and investigation of care given to all children supported by the several cities and towns.
4. Visitation and investigation of care given to all adults supported in families, other than their own, by cities and towns.

5. Reception and classification of the annual returns of cities and towns relative to poor persons supported and relieved and the cost thereof.
6. Visitation and inspection of wayfarers' lodges and public lodging houses.
7. Investigation of legal settlement of persons, possibly State charges, who have been supported, relieved or buried by cities and towns, and of sane inmates of State institutions.
8. Sending poor persons to the places within and without the Commonwealth where they belong.
9. Execution of the laws concerning infants and the licensing of infant boarding houses.
10. Licensing maternity hospitals.
11. Licensing boarding homes for the aged.

RICHARD K. CONANT,
Commissioner of Public Welfare.

DIVISION OF AID AND RELIEF.

FRANK W. GOODHUE, *Director.*

Subdivision of Settlements.

EDWARD F. MORGAN, *Supervisor.*

The subdivision of settlements investigates the legal settlement of all persons officially called to the attention of the division by the boards of public welfare and boards of health; investigates the settlement of patients admitted to the State Infirmary, State Farm (infirmary department), state sanatoria and the Massachusetts Hospital School; and supervises public relief rendered in homes and hospitals by cities and towns to persons without legal settlement. The subdivision also discharges inmates of the State Farm (infirmary department), visits poor persons supported by cities and towns in families, and investigates, upon request of the Division of Vocational Education, the circumstances of persons receiving vocational training, who apply for aid during rehabilitation.

The following table is a summary of the work done during the year in the examination and investigation of settlements of inmates of the state institutions:

INSTITUTIONS	Examina- tions	Orders Issued	Settle- ments Found	No Settle- ments	Orders With- drawn	Total Cases Returned
State Infirmary	2,654	751	530	119	40	689
State Farm	55	32	31	3	2	36
Lakeville State Sanatorium	173	143	142	14	—	156
North Reading State Sanatorium	193	169	146	18	—	164
Rutland State Sanatorium	151	125	114	24	—	138
Westfield State Sanatorium	276	221	203	22	—	225
Massachusetts Hospital School	68	68	54	12	—	66
Totals	3,570	1,509	1,220	212	42	1,474

Cases pending Nov. 30 1928, 350
Cases pending Nov. 30 1929, 385

Temporary Aid (General Laws, ch. 117, sect. 18, as amended by ch. 221, Acts of 1924). — Cities and towns are authorized by statute to furnish adequate assistance to poor persons having no lawful settlements, if so ordered by the Department of Public Welfare.

On December 1, 1928, there were 2,483 continued cases including 8,373 persons, and during the year 4,951 notices were received from 226 cities and towns concerning 19,644 persons.

Causes of Aid.

	1927	1928	1929		1927	1928	1929
Illness	1,153	1,082	1,128	Orphans	15	17	16
Desertion	364	300	343	Insanity	26	23	13
Widowhood	232	237	203	Blindness	12	13	12
Old Age	81	105	134	Non-support	73	95	84
Unemployment	1,981	2,844	2,327	Miscellaneous	4	7	4
Insufficient income	486	522	487				
Husband in correctional institution	190	206	200	Totals	4,617	5,451	4,951

The amounts annually appropriated by the Legislature are necessarily for current and previous years. The following tabulation shows the actual amounts reimbursed for aid rendered by cities and towns during the years designated:

YEAR	Number of Cases	Number of Persons in Families	Amounts Reimbursed
1912	2,847	12,339	\$48,192 85
1913	3,131	13,434	63,203 05
1914	4,848	20,714	108,337 29
1915	7,305	32,056	178,762 28
1916	5,165	21,043	159,205 53
1917	5,664	22,258	227,831 59
1918	4,358	17,701	261,217 44
1919	3,756	15,668	311,148 30
1920	3,223	13,313	534,565 05
1921	8,093	32,372	635,585 63
1922	6,472	29,124	588,296 43
1923	4,320	19,370	432,283 20
1924	5,765	27,279	642,336 34
1925	6,182	28,429	660,504 49
1926	5,584	25,720	621,558 21
1927 (January 1 to June 30)	4,118	18,611	397,183 56
1927-28 (July 1 to June 30)	6,406	30,428	876,519 81

Chapter 241 of the Acts of 1926 provides that claims against the Commonwealth shall be rendered to the department on or before the first day of October annually, and shall be for the twelve months ending on the thirtieth day of June preceeding.

Shipwrecked Seamen (General Laws, ch. 102, sect. 5). — During the year two notices were received, one each from Truro and New Bedford, which included 2 persons.

Sick State Poor (General Laws, ch. 122, sect. 17, 18). — The sick law provides that no person shall be sent to the State Infirmary whose health would be endangered by removal.

Cities and towns are reimbursed for the support of persons having no legal settlement who are ill in their homes or in public or privately controlled hospitals, infirmaries, or institutions for the deaf, dumb, or blind, provided such persons are not in suitable condition for removal to the State Infirmary when applying for assistance.

On December 1, 1928, there were 265 continued cases, and during the year notices were received from 140 cities and towns concerning 6,155 persons represented as too ill to be removed.

Dangerous Diseases (General Laws, ch. 111, sect. 116). — The law provides that a board of health shall retain charge, to the exclusion of the board of public welfare, of any person ill with a disease defined by the Department of Public Health as dangerous to the public health.

If any member of a family is ill with a disease declared dangerous to the public health, the aid required by the other members of the family is furnished by the board of public welfare, unless the family is quarantined as provided in chapter 111, section 95, General Laws, in which event the board of health furnishes all aid required. In hospital cases, reimbursement by the Commonwealth is governed by the provisions of chapter 122, section 18, General Laws.

On December 1, 1928, there were 265 continued cases, and during the year notices were received from boards of health of 85 cities and towns concerning 1,674 persons ill with diseases declared dangerous to the public health.

Wife Settlement (General Laws, ch. 122, sect. 12). — The law provides that "If a man who has no legal settlement and is in need of aid has a wife who is receiving

aid and who has a legal settlement in the Commonwealth, he shall be supported by the town where his wife has her settlement.”

On December 1, 1928, there were 137 continued cases, and during the year 458 notices were received from 60 cities and towns.

Burials (General Laws, ch. 117, sect. 17, as amended by chapter 298, Acts of 1923). — The law provides that if the expense of burial is not paid by kindred, “An amount not exceeding \$40 for the funeral expenses of each person over 12 years of age, and not exceeding \$20 for the funeral expenses of each person under that age, shall be paid by the Commonwealth; provided that the board of public welfare shall file with each claim an affidavit of the undertaker stating the total amount of his bill, the amount received from the town, and the amount received from all other sources, and provided, further, that if the total expense of the burial, by whomsoever incurred, shall exceed the sum of \$100 no payment therefor shall be made by the Commonwealth.”

The number of burial claims received during the year was 295 from 60 cities and towns.

Vocational Education (General Laws, ch. 74, sect. 22B). — The law provides that the Department of Public Welfare shall, upon request of the State Board of Vocational Education, make an investigation of the circumstances of persons actually in training afforded by said board, who apply for aid during rehabilitation, and shall make a report of its finding to said board.

During the year 7 applications were received and investigated, 6 of which were approved.

Audit. — The number, amount, and allowance of the bills examined on account of cases of temporary aid, sick state poor, dangerous diseases, wife-settlement, burial, and mothers with dependent children are shown in the following tabulation. It is to be noted that the total shown in this table may vary somewhat from the total paid out of the treasury during the fiscal year from the appropriation in question. This possible variance arises from the fact that bills audited by this department are in some cases not actually paid during the year for which the audit is shown. For actual expenditures from these respective appropriations see page 58.

CLASSES OF CASES	Bills	Claims	Allowances	Deductions
Temporary Aid	5,715	\$997,298 70	\$891,998 04	\$105,300 66
Sick State Poor	3,638	97,887 81	77,555 74	20,332 07
Dangerous Diseases	1,421	112,417 35	98,467 38	13,949 97
Wife-Settlement	429	15,264 83	13,116 92	2,147 91
Burial	328	9,504 65	8,033 89	1,470 76
Mothers with Dependent Children	3,430	874,832 64	830,723 24	44,109 40
	14,961	\$2,107,205 98	\$1,919,895 21	\$187,310 77

Removals. — The department is charged with the duty of removing sane poor persons to cities and towns within the Commonwealth, or, when not belonging in Massachusetts, to the state or place where they belong. The following table shows the removals made during the year:

	1927	1928	1929
To other countries	79	57	45
To other states	194	212	203
To towns of residence	1,357	1,343	1,153
	1,630	1,612	1,401

Supervision of Wayfarers' Lodges and Cheap Lodging Houses.

There has been much unemployment during the past year. What effect, if any, this has had on the population of the cheap lodging houses can be gathered from the figures below.

	1927	1928	1929
<i>Municipal:</i> Boston Wayfarers' Lodge	26,796	35,308	28,466
<i>Charitable</i>	40,397	38,717	38,694
<i>Commercial:</i> One of the older houses	29,674	32,150	30,551

Subdivision of Mothers' Aid.

(General Laws, Chapter 118.)

MRS. ELIZABETH F. MOLONEY, *Supervisor.*

STATISTICS.

At the beginning of the fiscal year, on December 1, 1928, there were 2,602 mothers with 7,648 dependent children under fourteen years of age receiving Mothers' Aid. They were classified as follows:

- A. Classified as to legal settlement:
 - 1. Without legal settlement:
 - 395 mothers with 1,033 dependent children.
 - 2. With a legal settlement:
 - 2,207 mothers with 6,615 dependent children.
 - B. Classified as to widowhood:
 - 1. Widows:
 - 2,030 mothers with 5,865 dependent children.
 - 2. Not widows:
 - 572 mothers with 1,783 dependent children.
- Note.* — The 572 living husbands classified as follows:
- 286 were totally incapacitated, of whom
 - 71 were insane, and
 - 215 had chronic illness. Of these
 - 95 had tuberculosis and
 - 120 had diseases other than tuberculosis.
 - 209 were deserting husbands.
 - 39 were divorced or legally separated.
 - 38 were in jail.

During the year 593 new cases were aided and 592 cases were closed, so that there were 2,603 mothers in receipt of Mothers' Aid at the close of the fiscal year (November 30, 1929).

The new cases that were received during the fiscal year included 593 mothers with 2,008 dependent children, and were classified as follows:

- A. Classified as to legal settlement:
 - 1. Without legal settlement:
 - 78 mothers with 249 dependent children.
 - 2. With a legal settlement:
 - 515 mothers with 1,759 dependent children.
 - B. Classified as to widowhood:
 - 1. Widows:
 - 422 mothers with 1,444 dependent children.
 - 2. Not widows:
 - 171 mothers with 564 dependent children.
- Note.* — The 171 living husbands classified as follows:
- 87 were totally incapacitated, of whom
 - 27 were insane and
 - 60 had chronic illness. Of these
 - 35 had tuberculosis and
 - 25 had diseases other than tuberculosis.
 - 52 were deserting husbands.
 - 13 were divorced or legally separated.
 - 19 were in jail.

Factors in Dependency.

Three (3) out of every four (4) mothers were aided because of the death of the father of the family.

Nine (9) out of every ten (10) mothers were aided because of either the death or the chronic illness of the father.

State Appropriations and Reimbursements for Mothers' Aid.

	Appropriations	Reimbursements
Sept. 1, 1913, to Nov. 30, 1914	\$175,000 00	\$174,999 36
Dec. 1, 1914, to Nov. 30, 1915	250,000 00	249,999 62
Dec. 1, 1915, to Nov. 30, 1916	300,000 00	299,998 78
Dec. 1, 1916, to Nov. 30, 1917	400,000 00	399,999 79
Dec. 1, 1917, to Nov. 30, 1918	475,000 00	474,999 63
Dec. 1, 1918, to Nov. 30, 1919	550,000 00	549,999 56
Dec. 1, 1919, to Nov. 30, 1920	775,000 00	775,028 78
Dec. 1, 1920, to Nov. 30, 1921	900,000 00	899,998 94
Dec. 1, 1921, to Nov. 30, 1922	850,000 00	849,999 48
Dec. 1, 1922, to Nov. 30, 1923	900,000 00	899,999 43
Dec. 1, 1923, to Nov. 30, 1924	950,000 00	949,999 97
Dec. 1, 1924, to Nov. 30, 1925	1,080,000 00	1,079,997 87
Dec. 1, 1925, to Nov. 30, 1926	900,000 00	900,000 00
Dec. 1, 1926, to Nov. 30, 1927	¹ 850,000 00	² 359,967 34
Dec. 1, 1927, to Nov. 30, 1928	¹ 1,050,032 66	661,175 17
Dec. 1, 1928, to Nov. 30, 1929	861,857 49	830,723 24

¹ Unexpended balance used for ensuing year.

² Affected by Chapter 241, Acts of 1926, which changed the period rendering claims against the Commonwealth.

The appropriation for Mothers' Aid has been approximately \$900,000 per year for the past nine years. The number of cases aided has gradually decreased since the peak in 1919 but the high cost of living has more than offset the falling-off in numbers. According to the report of the Massachusetts Commission on the Necessaries of Life, it would take \$1.60 to purchase necessities in 1930 which could be purchased in 1913 for \$1.00.

Number of Mothers' Aid Cases Active at End of Each Fiscal Year since the Enactment of the Law in 1913.

1914	2,334	1922	3,371
1915	2,798	1923	3,092
1916	3,035	1924	2,900
1917	3,242	1925	2,870
1918	3,366	1926	2,633
1919	3,743	1927	2,592
1920	3,330	1928	2,602
1921	3,407	1929	2,603

*Mothers' Aid Cases Active on November 30,
1914-1929.*

REASONS FOR CLOSING MOTHERS' AID CASES (during the year ending November 30, 1929).

During the year five hundred ninety-two (592) Mothers' Aid cases were closed.

I. Of these, three hundred seventy-six (376) had become self-supporting.

279 had become self-supporting through the earnings of the older children.

60 mothers had remarried, and so had provided for their children.

37 fathers had recovered and returned to work. Many of these were tubercular men who had been discharged from sanatoria "able to work."

The aid was not withdrawn immediately upon their discharge but opportunity was given them to find suitable employment. Organized effort to find out-door or part-time work for such men would be of great help, as many men have difficulty in getting such work unaided.

II. One hundred nineteen (119) were automatically closed.

Sixteen (16) mothers died and two (2) were sent to State hospitals, one as insane and the other, tubercular.

Five (5) mothers voluntarily withdrew their applications before aid was granted. Several thought they were applying for a "State pension"

and declined to accept public aid under the conditions imposed. One woman refused to give up male lodgers, and another woman who was a trained nurse insisted upon caring for patients in their homes, leaving her young children to the care of an inexperienced young girl for weeks at a time.

Four (4) mothers who had been receiving Mothers' Aid broke up their homes. One mother with an only crippled child found institutional care for the child and worked to support herself, and several others placed their children in orphanages or with relatives and worked full-time.

Sixty (60) mothers moved out of the city or town where they had been receiving Mothers' Aid. Many of these cases were reopened immediately in the city or town to which they moved, so that while aid was automatically closed in one town, it was immediately renewed in another. The mothers moved so as to be near relatives who could help with the care of the children, or to live with parents who could furnish free housing or low rent. Some moved to be near places where the older children were working, or where there were better opportunities for work.

Ten (10) cases were closed because the youngest child had become sixteen (16) years of age.

Twenty-two (22) were transferred to some other form of aid, such as military aid for the widow of a Spanish war veteran, and temporary aid for several mothers who had not resided in Massachusetts for three years just prior to applying for aid.

III. Twenty-five (25) mothers were found to be unfit.

The birth of an illegitimate child after the death of her husband, or the arrest and conviction of a mother for habitual immorality or intoxication, or for the illegal sale of liquor, larceny, or for the neglect of her children were the instances recorded.

IV. Seventy-two (72) cases were closed for various other reasons.

Nine (9) women, each of whom had only one dependent child were denied Mothers' Aid, because the mother by a reasonable change of plan could have become self-supporting. In several such cases the mother and child were both in good health, and the mother and child could have boarded with relatives.

Seven (7) were closed by local boards when the youngest child became fourteen (14) years old, but in every one of these cases there were older children earning, with the mother's help, enough to support the family.

Fifty-six (56) other cases were closed because they did not conform to the policies of the Department of Public Welfare. Some owned property of greater value than is allowed; some kept male lodgers; some neglected their homes in spite of frequent warnings and others had concealed assets in banks. Still others had received considerable sums of money in insurance or as settlement for injuries and had not acknowledged such assets.

Duration of Mothers' Aid cases closed between December 1, 1928, and November 30, 1929:

Less than 1 year, 175. Less than 2 years, 75. Less than 3 years, 71. Less than 4 years, 39. Less than 5 years, 32. Less than 6 years, 33. Less than 7 years, 29. Less than 8 years, 26. Less than 9 years, 18. Less than 10 years, 31. Less than 11 years, 30. Less than 12 years, 15. Less than 13 years, 8. Less than 14 years, 8. Less than 15 years, 2. Total, 592.

Distribution of Mothers' Aid Cases.

The number of Mothers' Aid cases reported by the 39 cities on July 1, 1929, is as follows:

CITY	Number of Active Cases	Popu- lation	CITY	Number of Active Cases	Popu- lation
Attleboro	12	20,623	Melrose	3	20,165
Beverly	21	22,685	New Bedford	61	119,539
Boston	807	779,620	Newburyport	6	15,656
Brookton	31	65,343	Newton	33	53,003
Cambridge	109	119,669	North Adams	5	22,717
Chelsea	43	47,247	Northampton	8	24,145

Malden	19	51,789			
Marlborough	8	16,236	Total number of cases in		
Medford	23	47,627	cities	2,034	

There were also 635 cases reported in 157 towns.

The following case shows how our supervision operates:

Mr. C., an Italian laborer, died in December, 1928, after three days' illness with pneumonia, leaving a widow thirty-three years old and seven children, the oldest, a girl of fourteen, and the youngest a baby ten months' old. The small insurance barely covered the hospital and funeral expenses so Mrs. C. applied for Mothers' Aid and the local board of public welfare gave her \$20 a week.

When the state visitor called, she found the family living in a four-room tenement on the third floor of an old wooden house. The entrance was through a cluttered alley opening off a busy street in a poor, congested neighborhood. The rent was \$16 a month. There was no bathroom and the toilet used by two families was dark, opened directly off the hallway, and was poorly ventilated. There was a kitchen, a living room and two bedrooms. The mother and the seven children slept in two double beds and a crib.

Mrs. C. was a small, dark, nervous woman with an ugly rash on her face. The children were undersized and puny. On the day of the state visitor's first call, Louisa, eleven years old, was at home sick. Mary, five years old, had a paralyzed right arm and hand, and was very lame as the result of infantile paralysis. She was receiving no medical attention and was not attending school. About a month before, Rocco, two years old, fell into a pail of boiling hot water with which fourteen-year-old Carmella was preparing to scrub the kitchen floor. He was at the hospital where extensive skin grafting was being done.

There was no preparation for dinner, and Mrs. C. gave eight-year old Josephine five cents with which to buy "something to eat on the way to school." We told the local board that we could not approve this case unless a new plan was adopted.

The local board was advised to move the family into a better house and neighborhood and to provide suitable beds and bedding; to have Mary examined and treated at the Children's Hospital clinic; to secure a visiting housekeeper to teach Mrs. C. how to feed her family, and to give Mrs. C. more aid. The board bought a bed and bedding for Mrs. C. but followed none of the other suggestions.

The state visitor called again at noon a week later and found that Mrs. C. was working in a rag shop. Three of the older children were at school, and three of the younger children were sitting on the doorstep waiting for them to return. A second letter was sent to the board calling attention to the neglect of the children.

A week later the state visitor called at noon. Mrs. C. was still working. The three older children returned from school, found the key under the door mat and unlocked the kitchen door. The house was cluttered, the table and sink filled with dirty dishes. Although the weather was cold, there was no fire in the kitchen stove. Carmella, "the little mothe." of the family, took some money out of a

vase on the mantel and sent one of the children to buy a half-dozen eggs, which she intended to fry in some fat in a big frying-pan on the two-burner gas stove.

Three of the youngest children were downstairs in the care of a young woman who had two young children of her own, and they were brought upstairs to share in the lunch that Carmella was preparing.

We again wrote the local board refusing to approve this case. We believed that the board was giving a dole to this family of twenty dollars a week and we decided that it was a waste of money to allow such conditions to continue.

Spurred into action by our refusal to aid, the board took action to remedy the conditions. The family was moved into a decent neighborhood and was provided with beds and bedding. Mrs. C. was warned to stay at home and take care of her children or forfeit her aid. Mary had died very suddenly. Rocco had returned from the hospital. The aid was increased to \$25 a week and fuel. Carmella earns \$4 a week and attends continuation school. There has been a decided improvement in the standards of the family but we shall keep it under close supervision.

Subdivision of Social Service.

MISS FLORA E. BURTON, *Supervisor.*

Social Service was started at the State Infirmary nearly twenty years ago by one volunteer, Mrs. Ada Eliot Sheffield, a member of the Board, who wanted to know what happened to unmarried mothers and their babies when discharged. She found that they went wherever they could find shelter: to the Boston City Temporary Home, to former bad companions, to fathers of the babies, to poor relatives, and in many cases boarding or abandoning their babies as soon as possible. After a six months' survey she persuaded the Board to place a social worker in the Maternity Ward. For four years social service confined its efforts to the Maternity Ward and to mothers admitted with their babies for convalescence. Then the service broadened to include all women with children, and in 1917 was extended to the girls and women infected with venereal diseases. At this time the staff included three paid workers, a part-time attorney, and two full-time volunteers. Great credit must be given to volunteer service for the untiring efforts and enthusiasm in the continued development of this subdivision.

In 1920 one worker began to assist old ladies and chronically sick patients. Not until this past year have we been able to give them full-time service. In 1923 a survey of a group of men was made, and in 1924 the Superintendent of the Infirmary asked that a worker be placed on the men's wards. State service grows slowly but surely. Now the staff consists of seven visitors, a supervisor, a part-time attorney, a transportation worker and three stenographers.

MEN.

Of the men, those under forty-five are usually our greatest concern. If they have chronic disease they need much encouragement to face the future, and if they are temporarily sick and out of work they must find their way back to industry quickly or they become depressed and discouraged. Habits of idleness are insidious and demoralizing. Throughout the winter a man visitor did much to keep the able-bodied men at work in the institution, and sent them out as soon as work was available. The friendly bedside visits to chronically sick patients, aged sick patients and other patients in the hospital wards are an important part of the service.

A sixteen-year-old boy came suffering with asthma and a severe cough. Treatment at a sanatorium and at acute hospitals had given only temporary relief. He had no home and his two brothers were unable to help him except for occasional clothing. His school visitor had befriended him for two years, providing him with a free home. The cough was so severe that it was unbearable in any home. This boy stayed two years at the State Infirmary. From a bed patient he grew strong enough to work on the farm, and he then wanted to try his strength outside the institution. A vacation camp was found for the summer and in the fall he was ready to go to work. His brother promised him a home if he could pay something, and he obtained a job as errand boy. He is now nineteen and earns ten dollars a week. That which seemed impossible has been achieved and will con-

tinue, with reasonable care, through the ceaseless efforts and encouragement of the social worker.

OCCUPATIONAL THERAPY.

The establishment of occupational therapy in the hospital has been a great social as well as therapeutic asset to the patients. To go into the work shop any day and see physically and mentally handicapped persons making rugs, baskets and other articles means that life and interest have been revived for many who had hitherto been inert, idle and discontent. Many men in the hospital and tuberculous wards and some mental patients have been particularly helped to more physical and mental activity. It also means the re-awakening of ambition and the desire to achieve. A small shop has been opened in one of the male hospital corridors which gives those confined to the wards a chance to work. It is hoped to see workshops extended to the women's wards and so to increase the health, work and contentment among our people.

WOMEN.

The aged and chronically sick women are now receiving adequate attention with the service of a full-time worker. There is much to be done in making contacts with relatives and friends, settling small properties and insurances, and securing jobs for middle-aged women who are able to work. Visiting in the wards is very important in helping the patients to feel that they are still individuals who count and are not lost in a huge public institution. Simple, thoughtful, individual service can be given which makes all the difference between loneliness and contentment. Efforts are made to board out aged persons who are physically fit for home care.

The younger women and girls always present the greatest social problems. Many are defective delinquent, psychopathic, feeble-minded and diseased. They should never be permitted to return to the community, once having come to the State's attention. Some are clever enough to have evaded arrest, and so by law are not defective delinquents. Others might go to custodial institutions if they were not so overcrowded. It would be very helpful if the Department of Public Welfare had the authority to petition the court to commit to the Colony for Defective Delinquents those persons who, temporarily in its care, are found to be defective mentally and have long records of misbehavior, idleness and disorder, but who do not come within the provisions of the existing law because they have no court record. As it is, they are at liberty to return to the community to be a menace to themselves and to others. To hold them indefinitely at the Infirmary creates disciplinary problems for the institution, and finally causes runaways. The visitors do place these girls at work and try to supervise them and encourage them to follow up their medical treatments at the clinics, but girls who do not want any supervision soon lose themselves. For example:

May, admitted for confinement, badly diseased, was formerly a state ward and was legally adopted by very good people who gave her every opportunity. She made a forced marriage, left her husband, became a prostitute, and while at the State Infirmary carried on a secret correspondence with a prisoner at Concord. Her child was colored, although she showed no signs of colored blood. When, after two years, she was ready for discharge, she was placed at work. She remained one month at work in a very good home which she said she liked, but she left without notice. Her whereabouts are unknown and she is a menace to any community.

Many high-grade feeble-minded patients, if they are to be placed out, should first be committed to the Division of Supervision of the Department of Mental Diseases, which has a legal right to supervise them in the community or commit them to an institution. Twenty-five (25) such girls are at the State Infirmary at this date, eager for their liberty.

One hundred three (103) women were admitted to the State Infirmary because of illegitimate pregnancy. Of the 54 first offenders, 36 came for confinement and 18 with their babies for convalescence; of the 33 women having two illegitimate children, 24 came for confinement and 9 with their babies for convalescence; and of the 6 women having three illegitimate children, 5 came for confinement and one with her baby for convalescence. Ten (10) of the 103 women were married and

illegitimately pregnant. Forty-seven (47) admissions were from the Industrial School for Girls and from the Reformatory for Women.

Five (5) married women were admitted for legitimate confinement.

CHILDREN.

At the State Infirmary on December 1, 1929, there were 211 patients under 21 years old; 54 between the ages of 15 and 21 years, and 157 children under 15 years of age. The older group may be classified as follows: 24 pregnant or convalescent from confinement, 16 with venereal diseases, 8 with chronic illnesses, 4 tuberculous, and 2 feeble-minded. The younger group may be classified as follows: 50 feeble-minded, 15 tuberculous, 25 with chronic diseases such as diabetes, heart, congenital syphilis, paraplegia, and 67 infants with their mothers. Of the whole number 74 are wards of the Division of Child Guardianship, and 22 (19 girls and 3 boys) are wards of the Division of Juvenile Training.

A large number of infants are obliged to stay longer periods than their own health demands because their mothers are receiving treatment for venereal diseases, awaiting deportation, or commitment to feeble-minded schools. For social reasons it has seemed better to detain them until the mothers are able to be discharged.

SUPERVISION AND PLACEMENT.

Supervision is always the most interesting and satisfying part of the work because it is possible to see character development and the stabilization of wandering and ineffective lives. Various methods of treatment are studied by the visitors, discussed, improved or abandoned.

The type of women and girls admitted to the State Infirmary seems to be changing. Those now admitted have less moral stamina and "backbone" than formerly. Many are mentally and physically incapable of attaining high standards of work and living. Work in the right environment is the best test and the best remedy. Although it has always been hard to find employment for the mother and baby, constant insistence that it can be found usually brings success. We still believe it to be the most satisfactory solution of the problem of mothers with illegitimate babies, and we can find homes of varying kinds, always fulfilling our moral requirements.

Girls with venereal diseases need special placement with the privilege of going to clinics for follow-up treatment. The transportation workers' days are well filled with the hospital visits necessary to the good health of the girls and children.

The immediate cases at hand are given consideration and care, but we have long recognized the need of protection for the child born out of wedlock. A more inclusive and state-wide service to every unmarried mother would protect the children, and proper supervision of the mother would be a prevention of illegitimacy. It is hoped that the Commission on the Laws Relative to Children will recommend such protection. For example:

Mabel was referred to us by a maternity hospital, which stated that a woman was coming to take her two-weeks'-old baby for adoption on that day. Mabel's family did not know of her trouble, the baby's father had sent money for the hospital bill, and Mabel was going to a friend. The adopting parent was to be a person from Nova Scotia who was a sister of a friend. The mother and baby were seen and were persuaded to wait until the adoptive home could be investigated. The mother agreed to go to the Infirmary for convalescence. The would-be adopting mother came to the maternity hospital two hours after the girl had left and was referred to this subdivision, but did not come. Investigation proved the proposed home in Nova Scotia to be very unfit. The mother's family was able to provide for her and the baby was boarded by a child-placing agency in a home near the mother. If the hospital had not been so socially minded that it referred the adoption for investigation, the baby would have been given away with less consideration than is given to the matter of giving away a kitten.

Regardless of the many handicaps of our patients, the visitors give remarkable assistance and care to many who come to find a kindly world within the institution and a friendly service eager to help them to life outside.

DIVISION OF CHILD GUARDIANSHIP.

MISS WINIFRED A. KENERAN, *Director.*

CHILDREN IN CARE AND CUSTODY OF THE DIVISION.

At the beginning of the past year, December 1, 1928, the number of children under care and supervision of the Division of Child Guardianship was 5,807. There were 1,237 children admitted to care, viz.: 647 neglected, 495 dependent, and 95 delinquent, making the total number for the year, 7,044.

Nine hundred nine (909) children were discharged from custody, viz.: 502 neglected, 326 dependent and 81 delinquent; hence there remained on November 30, 1929, 6,135¹ children classified as dependent, 2,990; neglected, 2,953; wayward, 14; delinquent, 178. The increase in population for the year was 328, or 5.6%.

These children were cared for as follows: Placed in families and fully supported by the Commonwealth, 4,076; in families and partly supported, 222; in families free of expense, 498; receiving wages, 831; in hospitals, 314; in United States service, 66; married, 41; whereabouts unknown, 87.

The large majority of children under care were born in Massachusetts or in one of the other New England states, but there are 133 of foreign birth, representing the following countries: England, 12; Canada, 55; Italy, 35; Poland, 8; Portugal, 6; Armenia, 3; Russia, 3; Greece, 2; France, 2; Austria, 1; Scotland, 1; Syria, 1; Mexico, 1; Sweden, 1; Finland, 1; Nicaragua, 1.

We have 385 colored children under care.

The number of illegitimate children is approximately the same as in previous years — about 25% of the whole number supported.

Last year we reported 268 full orphans under care: this year there are 328 so classified, while 1,500 have one living parent. In 961 cases the father is the surviving parent and in 539 cases the mother is living.

CHILDREN RECEIVED.

During the year 1,237 children were received by the division, including 742 court committed and 495 dependent children. Ninety-five (95) of those committed by court were delinquent and 647 neglected; 327 of this number of neglected children were permanently committed and the remaining 320 were temporary commitments. The final disposition of these cases is as follows: 83 were later committed permanently to the custody of the department, 147 were discharged to court, 4 were bailed and 1 died. At the end of the year, there were 85 cases pending final action.

A brief study of these 647 neglected cases and the causes which led to the children's appearance in court and their commitment to this department, shows that immorality, intemperance, desertion and mental defect are the outstanding reasons for the breaking up of families. In no case, however, does it appear that any one reason can be given for the removal of the children, but there is generally a combination of causes which brings the inevitable result. In 270 cases it has been found that immorality is the main reason, but there are eight other contributory causes, not all appearing in every case. In 204 cases, intemperance stands out as

¹ In addition to these 6,135 children, the Department had under its supervision and visitation November 30, 1929, 506 boys at the Lyman School for Boys; 293 girls at the Industrial School for Girls; 295 boys at the Industrial School for Boys; 2,537 boys and 615 girls in the custody of the Trustees of the Massachusetts Training Schools, outside the schools; 81 boys and 94 girls, patients at the Massachusetts Hospital School; and 162 children, patients at the State Infirmary, who are either young infants with their mothers, or else under hospital treatment, making a total of 10,718 children in the care and custody or under the supervision of the department. There were also 988 children supported at the expense of cities and towns who were subject to the department's visitation, reported upon at page 51.

the important reason, and in 137 cases, desertion is re-current. The fourth group, or 36 children, were committed because of mental defect of one or both parents and one of several other causes.

Three hundred thirty-four (334) of the 495 dependent children were received under the provisions of the General Laws, chapter 119, section 38; 199 were legitimate and 135 were illegitimate children. The study of each case shows that in the large majority the removal of the mother from the home resulted in the removal of the children. It is seldom that one cause alone is responsible for the breaking up of a family and it should be borne in mind that, coupled with the mother's removal, the desertion, immorality, intemperance or disability of the father is often a factor in these dependent cases as well as in the neglect cases.

Ten (10) of the legitimate children were full orphans, received under the provisions of this statute because of the existence of reliable relatives whose signatures it seemed advisable to obtain, or because of settlement. Otherwise, these children would have been committed by boards of public welfare under General Laws, chapter 119, section 22.

One hundred fifty-eight (158) children were received because of the absence of the mother from the home; 56 were taken because of her death; 43 because of her illness, and 25 because of her commitment to a hospital for the insane. Five (5) others had mothers in the Reformatory for Women. One mother was at Monson State Hospital, another a defective delinquent at Bridgewater, and 8 had deserted. Twenty (20) mothers had been classified as feeble-minded and either committed to proper institutions or placed under supervision. Twenty (20) children were received because they needed special care; a few were feeble-minded and several needed treatment for venereal diseases and were received for care at Bradford Infirmary.

Causes for Reception of Legitimate Children.

	Per Cent
1. Death of mother	28.1
2. Illness of mother	21.5
3. Insanity of mother	12.4

9. Special care for child	10.0
10. Miscellaneous cases	5.0
	<hr/> 100.0

Graph Illustrating Table.

One hundred thirty-five (135) illegitimate children were received as dependent under this same statute. The causes for such reception differ somewhat from the foregoing group and may be summarized as follows: Fourteen (14) children were received for orphanage, 11 because of ill health of the mother, and 3 mothers were in insane hospitals. Fifteen (15) mothers were in the Reformatory for Women, 1 in the Defective Delinquent Colony and 1 in the House of the Good Shepherd. Thirty-seven (37) children had feeble-minded mothers, forming the largest group in this class. Eleven (11) of these mothers had been committed and supervision of the others was arranged. Six (6) mothers had deserted and the children were received upon agreement by the towns of settlement to reimburse for support. In nine cases the mother was under supervision and caring for a second illegitimate child. Seventeen (17) were children of mothers under the care of the Commonwealth, 11 having been committed to the Industrial School at Lancaster and 6 were wards of this Division. Seven (7) children were received for special care.

Fourteen (14) cases must be separately considered and cannot be classified with the others. In one instance the child had been adopted and was received because of illness of the adoptive mother. Two children were received because on the mother's marriage the step-father refused to assume responsibility. Four (4) were children of married women and were taken to avoid breaking up the home. Two (2) were colored children of white women, and one the child of a deaf mute who could support only herself. In one instance the child was taken because of the extreme youth of the mother and the good character of her home. An illegitimate girl and her baby were received from her adoptive parents and one child was received from an immoral mother.

Causes for Reception of Illegitimate Children.

	Per Cent
1. Death of mother	10.4
2. Illness of mother	8.2
3. Insanity of mother	2.2

	<hr/> 100.0

Graph Illustrating Table.

One hundred forty-three (143) of these children had legal settlements and the applications for their admission were accompanied by agreements on the part of the town of settlement for support.

In addition, 155 children were committed under General Laws, chapter 119, section 22. These children have no settlement and no one available with the legal right to sign the application for their reception. Many have been deserted and others have parents who because of physical or mental defects are unable to provide.

INFANTS UNDER CARE.

The number of children in this group at the beginning of the year was 408. Three hundred eleven (311) were received, making the whole number supported 719.

Included in the number received were 9 foundlings who were committed by boards of public welfare in accordance with General Laws, chapter 119, section 22, and 6 infants who were removed from unsuitable boarding homes under the provisions of section 28 of the same chapter.

One hundred seventy-four (174) infants, having reached the age of three years were transferred to the subdivision for older children, 21 died, 5 were legally adopted, 26 were discharged to parents or relatives, 24 were discharged to court and 3 to place of settlement; hence there were 466 infants under care at the end of the year.

These babies are placed out and supervised by four visiting nurses, who made 8,670 visits. This number includes, 5,407 visits to our infant wards, and 3,263 visits of inspection, investigation and supervision of prospective foster homes, licensed boarding homes and infants boarded privately.

Mortality Rate in Detail.

	Under Care	Died	Rate
Birth to one year	97	11	11.3%
One year to two years	220	7	3.18%
Two years to three years	402	3	.74%
	719	21	2.92%

Eight (8) of the infants in the above table died at the State Infirmary, 1 at Bradford Infirmary, 9 in local hospitals, and 3 in foster homes.

A	.	.	— — 10	1 — 16			Convulsions
B	.	.	— 9 5	1 4 13			Pneumonia

The following table shows the rate of mortality among infants under three years, also under one year — for the past ten-year period:

	UNDER ONE YEAR			UNDER THREE YEARS		
	Total	Died	Percentage	Total	Died	Percentage
1920	180	23	12.77	646	33	5.10
1921	170	16	9.41	614	30	4.88
1922	155	9	5.8	588	20	3.4
1923	106	9	8.5	616	20	3.2
1924	98	6	6.12	571	13	2.27
1925	98	15	15.3	592	22	3.7
1926	110	5	4.5	637	16	2.5
1927	131	8	6.1	531	6	2.1
1928	86	9	10.45	645	18	2.79
1929	97	11	11.3	719	21	2.92

Although the number of deaths was 21 this year in contrast to 18 the previous year, it will be noted that there were 719 infants under care while 645 was the total number for 1928.

The number of cases referred to Bradford Infirmary shows a constant increase. Last year we sent 577 children for care, which was 72 more than the previous year. The nature of the illnesses varied little but the large majority of surgical cases were tonsilleotomies, as in the previous years. Since the services of the hospital and staff have been extended to include the care of young infants, we have been helped out of several difficult situations, and we gratefully appreciate this assistance.

CHILDREN OVER THREE YEARS OF AGE.

All children above the age of three years and numbering 5,669 are classified in three groups:

- Group A. Boys and girls between 3 and 12 years.
- Group B. Girls between 12 and 21 years.
- Group C. Boys between 12 and 21 years.

Group A.—Sixteen visitors made 11,395 visits to 2,746 children during the year. Each visitor has supervision of an average number of 170 children; this number indicates that our workers are carrying a heavy load, and we cannot expect the best results for each child unless we can give him more time and individual attention. We are repeatedly called upon to provide for children who are serious behavior problems. They come to us with a poor school record, even to the extent of repeating grades, while examinations at a mental clinic often give them high intelligence quotients. It is difficult to find the right home for a child of this type, and sometimes frequent relocations are necessary. Naturally a visitor who is obliged to take the responsibility of this child must devote much time to his case, to the exclusion of her 169 others. Again, we have serious health problems, many requiring frequent visits to hospitals and clinics. The following case will illustrate:

Grace, 9 years old, one of a family of five children, was referred by a local board of health on account of a severe case of keratitis. Her parents were divorced, the mother (with whom she lived) was shiftless, and home conditions were very poor. When this child was received she was nearly blind and was obliged to wear dark glasses. Weekly treatments at the Massachusetts General Hospital and the Eye and Ear Infirmary were found necessary, and she has been accompanied on forty visits to these hospitals. An operation for removal of tonsils and adenoids has been performed. She is now in very good condition and the hospital physicians assure us that she will soon be able to return home and to attend school.

Group B.—In this group of "Older Girls" there are 1,363 girls between 12 and 21 years of age. Five hundred eighteen (518) have passed the age of fourteen and are attending school. In the elementary schools we have 130 girls; in junior high school there are 144, in high school 226, and in schools of higher education, 18. The following table is of interest:

	Wage	Free	Part Free	Boarded
Elementary	—	16	10	104
Junior High	7	6	44	87
High	73	34	82	37

We aim to have all our girls in high school self-supporting but because some of them are physically handicapped we are paying board for the number indicated.

Fourteen (14) girls are preparing to teach; 6 are in Salem Normal School, 5 in Bridgewater Normal, 1 in North Adams Normal, and 2 in Boston Teachers College. Two (2) girls are attending business college.

G. H. was received as dependent at the age of eleven. Her mother was dead and her father had been committed to jail. The girl made an excellent record in high school and during her entire course earned a small wage which was used for clothing and spending money. The summer after graduation she worked and saved \$25 toward her college expenses. She remained in the same home and continued at wages, while she took up stenography as a post-graduate course in order to acquire points necessary for college. She passed her entrance examination creditably. Through the interest of her foster father a position was obtained during the summer, enabling her to earn \$12 a week. As she was in a free home she was

able to save \$130. Again, through the influence of interested people, including the principal of the high school and the Woman's Club, she received \$500 in scholarships, \$400 for tuition, and \$100 for extras. She entered college last fall and is doing well. She aims to secure work in a publishing house after graduation.

The majority of girls not in school are employed at housework. One hundred seventy-four (174) are so engaged. Fifty-two (52) are in mills or factories, 32 in offices and 64 are otherwise employed. This last group shows many in stores and a goodly number in hospitals, either as ward maids or attendants. In addition, 7 girls are taking the regular hospital course in nurses training.

Group C. — There are 1,576 boys in this group. One thousand two hundred twenty-seven (1,227) are over 14 years of age, and 387 of these are attending school.

Two hundred ten (210) of this number are in elementary and junior high schools, 171 are in high schools, trade, evening and business schools, and 6 are in colleges.

The boys in high schools and colleges are earning their way through school either in whole or in part, with excellent prospects of being able to complete the courses they have begun. There are 66 boys in the United States Army, Navy, Marine Corps, Coast Guard, and Merchant Marine. Nearly all have entered the Service with the intention of learning trades. Not all stay for their enlistment periods but it can be safely said that at least one half serve the enlistment period or re-enlist to acquire advanced ratings. The latter make good in the Service or in civil life after they leave the Service.

THE FEEBLE-MINDED GROUP.

About 200 children under our care have been definitely diagnosed feeble-minded, and in many cases institutional care has been recommended. The latter recommendation has not been possible to accomplish, as the executives are seriously handicapped by lack of space in their institutions. In the meantime the children are placed in the community for foster-home care.

A special type of home is selected for the placement of the feeble-minded child, and considerable time and effort applied to the education of the foster mother as to the meaning and application of mental hygiene to the mentally handicapped child in her care.

There are 93 feeble-minded girls and 35 boys in 24 foster homes, each home containing from four to six children. This idea of grouping has emanated from actual experience over a period of years, resulting in the discovery that children of this class are adjusted more readily in groups. All of them attend school except a small number who are unteachable and who will be admitted to one of the schools for the feeble-minded at an early date. The ages range from five to sixteen years, and many of them at the age of sixteen have reached the fourth or fifth grade. In the meantime there have been occasional episodes of misbehavior necessitating a change of home with consequent readjustment.

In the past when schools were not equipped with special classes for retarded children, it was difficult for the feeble-minded child to adhere to a constructive program; but cities and towns in Massachusetts are now including in their educational system facilities for studying the abilities and disabilities of each child, so that the abilities may be utilized educationally, vocationally and socially. In the future this department hopes to locate all feeble-minded children under care in localities where special classes are available.

Twenty-seven (27) girls who have passed the age of sixteen years are employed as domestics; 4 of these attend night school, and one also is studying the violin. Fourteen (14) girls are employed in institutions, where they react splendidly to intelligent supervision and routine environment. Thirteen (13) are employed as maids in private homes, and for the most part the adjustment is satisfactory in the achievement of a reasonable amount of happiness. There are, of course, frequent changes to other wage homes due to various causes: primarily, rebellion against supervision, lack of emotional control, infantile reactions, and petty thieving. The wages paid to the girls vary from \$2 to \$6 per week.

There are 18 feeble-minded children of this group at the State Infirmary, some of whom need permanent institutional care for physical disabilities; others who are too low-grade for placement and are awaiting transfer to the school for the feeble-minded; and three who have recently been considered favorable for a try-out in the community and will shortly be placed.

It is an accepted fact that all feeble-minded persons cannot be segregated in institutions, and that the vast majority will not need such provision. If some of the scholastic training is supplanted by industrial training and special social supervision provided, the individual will probably adjust and live safely and usefully in the community.

ADOPTIONS.

The usual satisfactory results were obtained in the adoption work this year. We, of course, have a much greater demand for children to adopt than we can supply because our policy is to make a careful study of the family history and, as a consequence, the prospects of the child, before we ask people to take them into their homes permanently. It is harder to prevent people from adopting our children than it is to have them adopted.

In all our cases children have to be with the proposed adopting parents for at least a year before the petition is presented to the court, in order to make sure that the child really fits into the home life.

As regards the parents, failure to support the child for two years or desertion for two years, makes their consent unnecessary. It is interesting to observe that parental ties are apparently easily broken because after an absence of two or three years from the child it is very rare to have the parents enter any objection to the adoption. In fact, if they can be found, they generally readily consent to the adoption, knowing that the child will have a better future with the adopting parents than with themselves.

During the year adoptions were allowed in the following counties:

Berkshire	1	Suffolk	4
Bristol	1	Worcester	1
Essex	3		
Middlesex	20	Total	32
Norfolk	2		

Applications for children for adoption: Pending, December 1, 1928, 13; new applications, 103; total, 116. Disapproved without investigation, 15; withdrawn, 14; investigated, 75; pending, 12; total, 116. Homes investigated, 75; approved, 56; disapproved, 19.

Thirty-five (35) children have been placed for adoption during the year. Thirty-two (32) children have been adopted, 23 girls and 9 boys. The oldest child adopted was a girl eighteen years old, and the youngest was a boy two years of age. There are now on trial for adoption 48 children.

LICENSED BOARDING HOMES FOR INFANTS.

During the last official year 627 licenses to maintain boarding homes for infants were granted under the provisions of General Laws, chapter 119, section 2, in 101 cities and towns, in addition to the 494 licenses in force at the expiration of the previous year; 479 expired by the one-year limitation, 1 was revoked, and 547 licenses permitting the boarding of 1,111 infants in 101 cities and towns remained in force November 30, 1929. Thirty-eight (38) applications were withdrawn and 12 were refused.

These represent the licensed homes, not only of infants under the supervision of the Commonwealth, but also of those under the age of two years placed out by parents and many private agencies.

It has been necessary to take court action in private cases where laws governing the protection of infants (chapter 119) were wilfully violated, and strict supervision is being kept in many instances.

The inspector of infant boarding homes made 509 visits during the year, supervising boarding homes and investigating complaints. Six (6) babies were removed under the provisions of chapter 119, section 28.

Summary of Infants under Two Years of Age reported to the Department of Public Welfare from December 1, 1928, to November 30, 1929, under General Laws, Chapter 119, which provide for the Protection of Infants and the Licensing and Regulating of Boarding Homes for them.

Applications withdrawn, 17.

The inspector made 151 visits to hospitals and 32 visits to investigate complaints.

Homes for convalescent, chronic and the aged are no longer licensed to care for maternity cases. It is unfair to those seeking quiet and rest to be annoyed by the disturbances that go with maternity work and the crying of babies, and most unfair to the new mother to be so closely associated with chronic cases.

The returns from a questionnaire mailed to each licensee show 42,093 cases delivered in 204 hospitals, — death of mothers, 289; death of babies, 1,211; stillbirths, 1,647.

Two hundred seventy-one (271) notices of discharge from maternity hospitals of infants with inflamed eyes were received during the year. Fifteen of the 204 hospitals reported eye infection.

Prophylactic used in infants' eyes in every case was either silver nitrate 1 per cent. or argyrol 15 to 20 per cent.

TUITION OF CHILDREN UNDER THE CARE AND CONTROL OF THE DEPARTMENT.

Under the operation of General Laws, chapter 76, sections 7 to 10, inclusive, as amended by Statutes of 1921, chapters 272 and 214, governing reimbursements by the Commonwealth for tuition of state wards in public schools, bills received from 235 cities and towns, for the tuition and transportation of 3,262 children, amounting to \$191,376.00 — viz., tuition, \$171,199.52; transportation, \$20,176.48 — were audited by the department and paid by the Treasurer of the Commonwealth during the year ending November 30, 1929. The location of the children was as follows:

DIVISION OF JUVENILE TRAINING.

CHARLES M. DAVENPORT, *Director.*

ROBERT J. WATSON, *Executive Secretary.*

(41 Mt. Vernon Street, Boston.)

On November 30, 1929, the total number of children who were wards of the Trustees of Massachusetts Training Schools was 4,246, distributed as follows:

SCHOOL	In the Schools	On Parole	Total
Lyman School for Boys	506	1,588	2,094
Industrial School for Boys	295	949	1,244
Industrial School for Girls	293	615	908
	1,094	3,152	4,246

The total number in the schools on November 30, 1929, is 36 less than on November 30, 1928; all of the schools show a decrease.

The Board of Trustees held 12 meetings during the year in addition to 36 meetings of various committees. A total of 94 separate visits have been made to the three schools by members of the Board of Trustees during the year. In addition to these visits made by the trustees, the executive secretary of the Board has visited the three schools 50 times during the year.

Boys and girls may be paroled from the training schools at the discretion of the trustees. Applications for parole may be made, either in person or by letter, to the executive secretary of the trustees, who will see that they are acted upon if the boy or girl has been in the training school a reasonable length of time.

The average length of stay at Lyman School is slightly longer for 1929 than for 1928 but a slight decrease is shown at the other schools.

AVERAGE LENGTH OF STAY.

	Lyman School for Boys	Industrial School for Boys	Industrial School for Girls
1928	11.43 mos.	9.9 mos.	1 yr. 5 mos. 15 days
1929	12.05 mos.	9.7 mos.	1 yr. 4 mos. 13 days

Boys' Parole Branch

JOHN J. SMITH, *Superintendent.*

On November 30, 1929, there were 1,588 boys on parole from the Lyman School for Boys and 949 on parole from the Industrial School for Boys, a total of 2,537. This is a net gain of 54 as contrasted with a net loss of 93 for the preceding year. From the Lyman School for Boys, 459 were paroled to their own homes, or to relatives, 73 to foster homes at wages, and 131 to foster homes at board. Three hundred sixty-seven (367) were paroled from the Industrial School for Boys to their own homes, or to relatives, and 57 placed at wages in foster homes. From the Industrial School for Boys it is always possible to parole a boy to a foster home where he can at least earn his board, but the smaller and younger boys from the Lyman School, who have to attend school, must necessarily be paroled to their own homes, or to relatives. Sufficient foster homes have been available so that boys have not been detained waiting for parole.

Industrial conditions have made it extremely hard for many boys to obtain employment, and even when they did obtain work it was usually of the most menial nature. In fact, many were unable to get steady work of any kind, and were fortunate to be employed at odd jobs.

Honorable discharges were granted by the trustees to 54 boys on parole from the Lyman School for Boys and to 69 on parole from the Industrial School for Boys. This was encouraging, in view of poor industrial conditions and the prevalence of so much crime committed by juveniles.

Eighty-six (86) boys on parole were committed to other institutions during the year, of whom 51 were on parole from the Industrial School for Boys, and 35 on parole from the Lyman School for Boys. It is a question how many of these commitments could have been avoided by this department if there were more visitors to give closer supervision. Considering the number of boys on parole, however, and the number of visitors employed, it does not seem possible to expect better results.

During the year 19,240 visits were made, of which 9,217 were made to boys under eighteen years of age on parole from the Lyman School for Boys, 3,492 to boys over eighteen on parole from the Lyman School for Boys, and 6,531 to boys on parole from the Industrial School for Boys. One thousand five hundred sixty-eight (1,568) home investigations were made, as well as 202 investigations of foster homes. Our visitors spent 775 hours looking for runaways from the Lyman School for Boys and the Industrial School for Boys, and 619 hours in looking for runaways from foster homes. In addition to this, they spent 1,044 hours trying to find jobs for boys on parole in their districts.

On November 30, 1929, this department held for its wards 600 bank books, showing deposits of \$27,565.42. Every effort is made to encourage boys earning wages in foster homes to save.

Girls' Parole Branch.

MISS ALMEDA F. CREE, *Superintendent.*

It has been, and is, the aim of the Girls' Parole Branch to give to each individual girl opportunities to develop a poise, a standard of morale, a point of view, and a goal, which will be her guide and support, when, at twenty-one, she is on her own resources. To attain this aim means individual study of the background, the personality defect, which are varying in causes and degrees, and the needs of each girl. But how has this been done with the greatly increased number of parolees and no increase in the number of workers? The last worker added to the Department was in 1918. Since then the number of girls on parole has increased 73 per cent, there being 776 individual girls and 62 babies taken care of by the Girls' Parole Branch during 1929. The visitors have visited their girls 6,978 times during the past year. They interviewed 6,385 individuals in doing their work. The most that we have been able to do in the past year, in many instances, has been to point the way, when once we accompanied the girls on the way.

A study of the material that the Parole Branch has worked with is shown somewhat in the mental diagnoses of 611 girls, who were mentally examined, out of the 776 who were on parole during the year 1929.

21.7% normal	20.7% feeble-minded
3.1% supernormal	0.1% feeble-minded with epilepsy
48.6% subnormal	5.2% psychopathic
0.6% mentally deficient with psychosis	

When one adds to this grade of mentality the bad heredity, the degenerating home environment, the lack of moral training, and the fact that over 90 per cent of these girls had sex experiences prior to commitment, and the others were possessed of much unwholesome sex knowledge, it is evident that the Parole Department has been confronted from day to day with an enormous task.

Six hundred and fifteen (615) girls were on parole at the end of the year, November 30, 1929; the average age being eighteen years and two months. Two hundred and twenty-two (222) of these were under eighteen years of age, 165 were under seventeen years of age, and 57 were under sixteen years of age. Three hundred and six (306) different girls have been in housework positions during the year. Two hundred and ninety-five (295) foster homes were used 436 times. The homes of 237 applicants for girls were investigated and 129 of these new homes were used. One hundred and sixty-six (166) homes that had been used in previous years were again used this year. Eighty-five (85) girls were paroled to foster homes for the first time. Ninety-one (91) girls were paroled for the first time to the homes of relatives.

The parole of tomorrow should be better than the parole of yesterday. To bring

about a better parole for the future, many old methods must go and new ones take their places. First, the school must prepare the girls for other employment than housework — such trades as the running of power machines, dressmaking, costume designing, practical art courses, hairdressing and manicuring, millinery, bookkeeping and stenography, household nursing, fancy cooking, et cetera.

It will be most important that each girl should be trained in the trade or vocation for which she is best fitted in general makeup and mentality. This can be determined by the psychiatrist and psychologist working with the officers of the institution. The girls who dislike housework, as most of them do, being equipped with a trade when paroled, will be better able to find and keep employment. For the girl who has no relative's home to which she may be paroled, the Parole Department must find a foster family where she can board. The foster-home placing of girls who do housework for wages is becoming more and more unsatisfactory in this day of bridge playing and golf.

The rehabilitation of girls' homes must be done. To do this, the full time of one worker will be needed. It is short-sightedness for a state department or private organization to go on rebuilding and educating the girls and leaving the families out of the program. The salary of a worker could be saved if more girls were paroled to their relatives, by the saving of the expense of outfits and trunks which are not furnished to girls when paroled to their relatives.

The old idea that the girl must live in a foster home to get the proper amount of protection that she needs has failed in too many cases to warrant its continuance. In this day of electrical appliances to make housework easier and quicker, the employer has more time to be away from home, and our girl is left unguarded to care for the home.

On November 30, 1929, there were 302 active bank accounts of the girls on parole, amounting to \$14,609.62. Thirty-eight (38) girls had between \$100 and \$200; 5 girls had between \$200 and \$300; and 3 girls had \$300 or over. Twenty-nine (29) of the 60 girls who reached their majority during the year had \$796.50 in the bank.

HOUSING AND TOWN PLANNING.

EDWARD T. HARTMAN, *Consultant on Planning.*

The year shows the establishment of five new planning boards, in Canton, Orange, Scituate, Sudbury, and Westboro, making 112 in all. But, as will be shown, this does not mean that there are 112 boards functioning.

Four new comprehensive zoning laws have been adopted, in Lincoln, Westwood, Revere and Lynnfield, while Barnstable adopted a somewhat elementary form of interim law. Revere replaces an interim law with a comprehensive law. Newburyport repealed her interim law without adopting any other form of zoning. This brings the list of places in Massachusetts with some kind of zoning to 67, covering 70 per cent of the population of the state. Twenty-eight places have prepared zoning schemes which have not been adopted.

AMENDING ZONING BY-LAWS.

By chapter 39, Acts of 1929, the provisions for amending local by-laws were changed. This renders void any provisions in local by-laws in regard to amendments. The new provision, section 30 of chapter 40, General Laws, as amended by chapter 39, Acts of 1929, is that an amendment to a by-law or a town zoning map may be brought directly before a town meeting without a hearing. However, if previous to the time of the town meeting any objector files objection in writing with the Town Clerk, the matter cannot be acted upon until the objectors are heard by a special committee or by the planning board, and a report is rendered to the town meeting.

PLANNING BOARDS.

Places required to have planning boards under the law and now without them are Adams, Beverly, Cambridge, Chelsea, Danvers, Greenfield, and Marlboro. All of these places, except Danvers, have, at some time in the past, had planning boards. The Beverly, Cambridge and Greenfield boards resigned en masse because of dissatisfaction with the way their recommendations were received by the city governments and the people.

While there are 112 boards, a few of them have only a nominal existence. Two at least were established merely to comply with the law, with the definite understanding that nothing should be done. Several of the boards have succeeded in doing nothing because of lack of initiative on the part of the members and lack of stimulus on the part of the public.

Contrasted with boards that consistently use every effort to keep sound suggestions before the people are those that make some hasty proposal and, when it fails of acceptance, quit entirely. Proposals should be worked out with care and presented to the people in such a way as to secure acceptance of the proposal or suggestions that will improve it so that it will be accepted.

It is a part of the duty of a planning board to consider matters in every single instance. If in the meantime citizens or officials bring matters they have under consideration to the board for cooperative consideration, all the better. But the planning board may not absolve itself because things have been done without consulting it. If the board is up-to-date it will constantly keep development problems before the town, and it will find itself with a more or less definite opinion on any matter presented to it. If it is not this kind of a board it is time for the townspeople to act.

ZONING ADMINISTRATION.

While every place needs zoning and will never grow properly without it, the greatest need of the moment is proper zoning administration. Zoning schemes are constantly being broken down by those who seek special privilege. People of all stations, members of boards who see a chance to make some money from a contract for work, reformers, educational institutions, prominent citizens who should be above such things, and those persons who regularly seek special privilege, calmly apply for permits in violation of the law. Frequently they get what they request. If refused, they appeal and frequently get from the board of appeals a permit to violate the law, under the guise of a variation. If they fail here, they go to the legislative body and get a change in the law. Such changes are seldom in accordance with a sound scheme of growth. They are and always will be mainly special privilege granted by careless, mistaken, favoring or corrupt officials or legislative bodies.

BOARDS OF APPEAL.

Boards of appeal should note that they may vary the strict terms of the law where odd-shaped lots or other conditions raise difficulties, but they cannot change the law. That is for the legislative body. To permit a business in a residential district is a change in the law.

The Massachusetts statute permits variations from the requirements of a local law by a board of appeals only when they may meet a physical difficulty or avoid an unnecessary hardship, and then *only in case what is done is in accord with the purpose and intent of the zoning law.*

The intent of zoning is to protect the health, safety and general welfare of the people, to prevent congestion and confusion, to guard against fire, to provide light and ventilation, and to see to it that those who observe the law have the protection of the law. If Brown observes the law and builds a one-family house with a proper set-back and side and rear yards, and a hundred others have done the same, why should Jones be allowed to buy a vacant lot in their midst and erect a ten-story apartment covering the entire lot, and for a hundred families? In such a case, Jones is given special privilege. He is permitted to steal his light and air from his law-abiding neighbors, to increase the fire and traffic hazards, to create a nuisance, or in the words of the U. S. Supreme Court, "put the pig in the parlor instead of in the barn-yard."

THE VALUE OF ZONING.

Ask real estate men operating in Metropolitan Boston as to the best place to live. They will mention no unzoned place. The reason is that all wise real estate men know that the only thing that will make a desirable residential area is some sort of protection, such as is found in private restrictions and zoning. Unfortunately, some zoned places will not be mentioned, because they waited too long. Some very fine places will not be mentioned, because they are without pro-

tection. Zoning has never been considered or has been defeated by some selfish interest seeking to mine the town just as we mined our forests. After that is done there is little hope. It takes many years to overcome such conditions.

THE EFFECT OF MAIN HIGHWAYS ON VILLAGE LIFE.

In considering this question, the chief point of interest is village life. The villages of Massachusetts have many unique and desirable qualities. The outsider, when he approaches a New England village, is impressed by the beauty of the roadside scenery, the quiet village streets arched with elms and lined with attractive homes. It is these characteristics plus the climate, the hills and the water-fronts of Massachusetts which are bringing increasing numbers of American people to spend their summers in Massachusetts.

Before the coming of the automobile, Massachusetts was developing an efficient highway system. These main highways naturally tied in with existing roads, in fact, consisted largely of improved roads. Village main streets were used the same as country highways. This was satisfactory in the day of the horse and carriage but where it means anywhere from five hundred to fifteen hundred automobiles per hour, it is an entirely different problem.

Unthinking people are too apt to work on the assumption that it is too expensive to build new highways. If people would think this matter through, they would see that in the end we cannot afford not to build new highways. In short, every village should be by-passed by the main highway and such highways should have spur-roads leading into the village centers. If this is not done, the villages will be ruined, their elms will be cut down, their homes rendered uninhabitable, and the expense of re-establishing all this village life will be infinitely greater, and will extend over a much longer period of time, and will produce much greater unhappiness than can possibly be produced by building new highways. Many of the country roads as they now stand may be used for these main highways. The chief point of importance is to by-pass the village centers and save them.

HOUSING EXPERIMENT AT LOWELL.

The condition of the housing experiment at Lowell remains unchanged with payments on the houses erected going on regularly.

A statement of the money spent and the money paid back into the State Treasury is as follows:

Appropriation (made in 1917)	\$50,000 00
Expenses:	
Land purchased, 7 acres with room for 40 houses, including also one house standing on lot	\$12,500 00
Cost of 12 houses	28,128 77
Improvements	2,626 77
	43,255 54
Balance returned to State treasury	\$6,744 46
Sale price of houses and lots	\$36,862 30
Amount paid on principal	24,074 17
Principal remaining unpaid Dec. 1, 1928	\$12,788 13
Paid back to State treasury in monthly installments:	
Interest	\$12,617 64
Principal	24,074 17
	\$36,691 81

THE FIVE INSTITUTIONS.

A brief statement relating to the general supervision of each institution will be followed by comparative and more detailed consideration of financial administration. Further details about the work of the various institutions may be found in the institution reports which are published separately.

THE STATE INFIRMARY, TEWKSBURY.

JOHN H. NICHOLS, M.D., *Superintendent.*

Trustees.

G. Forrest Martin, M.D., Lowell, *Chairman.*

Mrs. Nellie E. Talbot, Brookline, *Secretary.*

Francis W. Anthony, M.D., Haverhill.

Mrs. Mary E. Cogan, Stoneham.

Walter F. Dearborn, M.D., Cambridge.

Mr. Robert G. Stone, Brookline.

Mr. Dennis D. Sullivan, Middleborough.

Total valuation of plant, real and personal, \$2,581,573.32

Normal capacity of plant, 2,800. Value per unit of capacity, \$921.99

Provides infirmary care for indigent persons not chargeable for support to any city or town.

Numbers.

	Males	Females	Total
Number Dec. 1, 1928	1,587	1,048	2,635
Admitted during year	2,061	669	2,730

Daily average inmates during year	1,527	1,040	2,567
Daily average employees during year	204.01	262.35	466.36
Largest census during year	—	—	2,816
Smallest census during year	—	—	2,375

Of the 5,365 cases cared for during the year, 4,433 were in the general hospital wards; of which 3,308 were males and 1,125 were females. Of this number, 858 were discharged well, 578 were improved, 617 not improved, 490 died, and 1,890 remained in the hospital, at the end of the year. Of the number cared for in the hospital, there were 470 cases of pulmonary tuberculosis, 11 of influenza, 3 of erysipelas, 57 of measles, and 4 of chicken pox. There were also 125 cases of alcoholism. Of the number of deaths, 96 were due to tuberculosis of the lungs.

There is a decrease of 73 in the daily average number of patients in the institution as compared with the preceding year.

In the men's hospital there is an increase in the number of the very aged and those requiring a longer duration of care or treatment. It is becoming more difficult to meet the requirements. With a capacity of 427 beds, 2,468 cases were received and treated there during the year.

Although there was a slight decrease in cancer cases, there have always been enough to more than fill the small cancer ward where only 10 beds are available for these patients.

There have been treated 23 cases of diabetes, requiring diabetic diet, insulin treatment and continuous hospital care. There has been an increase in the number of such cases which are now being sent to the Infirmary. Marked success has followed the Minot-Murphy diet for cases of pernicious anæmia. A daily average of 6 diabetic patients are taking insulin and diabetic treatment, and are being taught the principles and technique of these treatments that they may treat themselves in their own homes later.

An eye clinic is held once a week for the examination and treatment of diseases of the eye and for prescribing and supplying glasses to patients in need of them. As many as forty patients attend this clinic in one day. The X-ray department is under the direction of a physician who devotes two afternoons each week for cases requiring consultation, advice and treatment. This clinic is increasing in attendance.

An active venereal clinic is likewise maintained, with creditable results.

Fifty-five major surgical operations and over 300 minor surgical and accidental cases were cared for during the year in the men's department, and 42 major and 78 minor operations were performed in the women's hospital.

There were 110 births at this institution during the year, 61 males and 49 females. Of this number, 107 were living births, namely 59 males and 48 females. Among the mothers of these children, 79 were born in the United States, 6 in Ireland, 19 in British Provinces, and 6 in other countries.

Of the 470 treated in the department for tuberculosis, 60 were classified as minimal; 96 as moderately advanced; and 314 far advanced. In the men's department 331 tubercular cases were admitted, while in the women's department there were 106 admissions. Eight (8) were discharged as arrested; 20 relieved; 33 not relieved, and 96 died. There were also 33 cases of non-pulmonary tuberculosis treated.

In the department for the insane there were 61 admissions, with a daily average of 792, 240 males and 552 females. Forty-five (45) died. Of the 61 admissions, 51 were first admissions; 2 readmissions, and 6 transferred from other hospitals for the insane. Twelve were discharged from the books; 1, as well; 7, as improved; 1, as unimproved; and 3 were transferred to other hospitals for the insane, their condition being unchanged. An average of 145 men and 264 women were productively employed during the year.

The dental department has been busy attending to the wants of the inmates.

The farm has been very productive this year. The dairy herd is accredited free from tuberculosis since 1924 and comprises 160 head of stock of which 29 are pure bred.

The lodge for men, authorized in 1928, was completed this year. This building has a capacity for 384 men and relieves us of more than one-half of the overcrowding which has existed for many years in the men's pavilion, and has made it possible to classify and arrange for the more rugged men in this new lodge called "Stoncroft," and separate them from the more aged and feeble patients remaining in the men's pavilion which is closely connected with the hospital department. Those who are able to work, render assistance, or act as helpers, and they are cared for in the new building.

On May 1, the seventy-fifth anniversary of the opening of the State Infirmary was celebrated with a large gathering of officials and friends. The Board of Trustees gave a luncheon in the new building, followed by a program in the chapel. The continuous growth of this institution in 75 years was considered, together with the magnitude of its work.

With an appropriation of \$1,007,100 plus \$16,063.44 brought forward from the balance of 1928, the total amount available for maintenance was \$1,023,163.44. Of this amount \$991,673.58 was expended. Of the amount expended, \$432,468.25 was for salaries, wages and labor; all other expenses, \$559,205.33. Net weekly per capita cost of maintenance, computed on expense less sales and refunds from maintenance, \$7.378. Total receipts from all sources other than the State treasury, \$118,795.19. Net cost of maintenance to the Commonwealth, \$872,878.39. Ratio of daily average number of persons employed to daily average number of inmates, 5.5. The trustees estimate that \$1,127,712 will be necessary for maintenance in 1930.

In compliance with section 4, chapter 29, of the General Laws, the following estimates for special objects and items are submitted:

1. Maternity Ward	\$20,000 00
2. Extension to Men's Hospital (80 beds)	70,000 00
3. Extension to Laundry Building	6,000 00
4. Industrial Building	45,000 00
5. Storage Building	24,200 00
6. Land to protect water supply	2,000 00
7. Walks and driveways	4,000 00
8. Extension to Women's Hospital	80,000 00
9. Improvements to Women's Hospital	20,000 00
	<hr/>
	\$271,200 00

INFIRMARY DEPARTMENT AT THE STATE FARM, BRIDGEWATER.

(Under the Department of Correction.)

HENRY J. STRANN, *Superintendent.*

Provides infirmary care for indigent persons (male) not chargeable to any city or town. The data following are for the fiscal year ending September 30, 1929.

Daily average employees during year	36.20	73.96	110.16
Largest census during year	—	—	325
Smallest census during year	—	—	159

Of the 969 cases cared for during the year, 697 were discharged, — 615 from hospital care and 82 from the school. There have been admitted 690 children, — 574 to the hospital and 116 to the school. There remained at the close of the year, 228 crippled and deformed children in the school and 44 sick minor wards in the hospital. The average age of all children admitted during the year was 9 years, 2 months and 17 days; the youngest being 6 weeks, and the oldest, 20 years, 2 months and 17 days.

Exclusive of 25 whose birthplaces are unknown, 561, or 82½ per cent, of the 680 children actually admitted were born in Massachusetts; 77, or 13 per cent, were born in other parts of the United States and 17, or 2½ per cent, came from foreign countries.

With the increase in the number of recent victims of the disease popularly known as infantile paralysis, it became necessary to relieve the medical and nursing service by extending the work of the physiotherapist, and a full-time resident assistant in that department was appointed last year. Her time during the past year has been about equally divided between individual attention to special cases and the supervision of group activities on the playgrounds.

To supplement the work of the dentist, a full-time dental hygienist has been appointed; her services being another important factor in the constructive foundation arranged for these children.

Many graduates and former pupils return each year to call at the school for which they give evidence of an affectionate regard. At the beginning of the school year one graduate, after obtaining her degree from Leland Stanford University, crossed the continent to join the Massachusetts Hospital School staff as head teacher. After an absence of nine years, a young man travelled several hundred miles for a visit of but a few hours to report the progress he was making at self-support, directly as a result of the training given at this school. Scores of similar evidence of loyalty and devotion to the school might be given.

The farm continues to supply some valued products: 83,157 quarts of milk have been produced, which is high above the maximum standard for butter fat, comes from a healthy source, is pasteurized and then consumed within twelve hours.

Every child received at the institution, whether an orthopedic case for the school department or a minor ward for hospital care only, is entered through the Bradford Infirmary. On first admission a complete physical examination is made as a routine procedure including X-ray, laboratory analyses, dental examination and other diagnostic measures. School cases usually are held at the infirmary until they have passed the incubation period of the common contagious diseases. During this period following the initial examination, the social worker, having previously seen the child at home, is helpful in making new adjustments pleasant; the dental hygienist takes up her duties with the child and the necessary braces, splints and orthopedic appliances are prescribed by the physicians for the work of the apparatus shop. Any surgical procedure for the correction of deformities usually is not begun until a child has become well established in school. When a surgical operation has been decided upon, or a child's illness demands special medical and nursing care, he may be and frequently is readmitted to the infirmary by transfer from the school department.

Recently it has become the fashion to place much emphasis upon the value of ultra-violet light as a therapeutic measure in the treatment of orthopedic children. Our carefully tabulated observations in the use of the artificial light rays would be disappointing to some advocates of that method of treatment. Doubtless the wide difference between our results and those made by other observers may be explained by the healthful out-door conditions under which our children live both day and night compared with the shut-in environment of many slum-stunted children attending other clinics. While we continue to prescribe the ultra-violet light, as well as massage, muscle training and graduated exercises in certain selected cases, they have not been employed as substitutes for a child's natural instinct for play, which always has been an important factor in the life of the school.

Public interest in the welfare of crippled children is becoming widespread not only in this Commonwealth, which was a pioneer in a sadly neglected field, but in other states of the Union where both public and private agencies for the relief of cripples are being established with commendable enthusiasm. The crippled child in any community presents a complex social and economic problem, a solution of which should not be undertaken without most careful consideration of many important factors. In May of this year, a survey was started which will be of great value in determining the future of a large number of deserving children, illiterate, or improperly taught on account of physical disabilities, who by proper care can be made helpful to the community.

In reviewing a list of our 345 graduates, it is very striking to note that of the earlier classes at the school, where the persons are of an age to be established in life, practically every one now living is self-supporting. Many of the young men are married and are supporting families as well. Some graduates who have died were also prospering and on the way to a promising future. Of the twenty-two women graduates married, it is safe to say that the domestic training received at the school has been invaluable, though some still work outside the home. One, widowed and left with a little daughter, has an excellent and responsible position as bookkeeper. Of those graduates whose physical handicap has been too great to permit of entire self-support, or whose home conditions allow them to remain there, there is no doubt that in most cases their Hospital School training has much diminished the burden of their support, and in many cases it probably enables them to render an equivalent for their maintenance.

With an appropriation of \$196,500, plus \$3,791.06 brought forward from balance of 1928, the total amount available for maintenance was \$200,291.06. Of this amount \$192,013.54 was expended. Of the amount expended \$108,364.40 was for salaries, wages and labor; \$83,649.14 for all other expenses. Net weekly per capita cost of maintenance, \$12.963. Total receipts from all sources other than the State treasury, \$77,970.97. Net cost of maintenance to the Commonwealth, \$114,042.57. Ratio of daily average number of persons employed to daily aver-

age number of inmates, 2.5. The trustees estimated the sum of \$205,952.90 for maintenance in 1930.

For the coming year the trustees submit the following estimate, with a request for special appropriation covering the same:

Cottage for 30 Convalescent Children \$50,000

LYMAN SCHOOL FOR BOYS, WESTBOROUGH.

CHARLES A. KEELER, *Superintendent.*

Trustees of Massachusetts Training Schools.

Mr. James W. McDonald, Marlborough, *Chairman.*

Mr. Clarence J. McKenzie, Winthrop, *Vice-Chairman.*

Mr. William S. L. Brayton, Fall River.

Smallest census during year	483	—	483

At no time during the last ten years has the number of boys been so great as during the past year. The daily average was twenty-four more than the previous year.

Of the 864 cases received during the year, 326 were committed by courts, listed as follows: assault and battery, 4; breaking and entering, 103; delinquent child, 2; indecent assault, 3; larceny, 125; lewdness, 4; malicious injury to property, 4; manslaughter, 1; malicious mischief, 3; ringing false alarm of fire, 2; running away, 10; setting fires, 1; stubbornness, 29; trespass on railroad, 2; unlawful appropriation of autos, 30; unlawfully carrying a revolver, 2; violation of rules and regulations of the Hampden County Training School, 1.

Of the above, 274 had been arrested before and 29 had been inmates of other institutions. Seventy-three (73), or 22 per cent, were of American parentage; 198, or 60 per cent, were foreign born; and the parentage of 6 was unknown. Eleven (11) of the boys were foreign born, and 315 were born in the United States. In addition to the court commitments, 359 were returned from places, 116 runaways captured, 40 returned from hospitals, 2 returned from leave of absence, 17 returned from funerals and 4 returned from other institutions.

Of the new commitments this year, 54 boys were eleven years of age or under. These young boys are taken care of in two cottages, one seven miles and the other three miles from the main school. They do not mingle with the older boys.

The average length of stay in the Lyman School of boys paroled for the first time during the year ending November 30, 1929, was 12.05 months.

Of the 879 cases discharged or released during the year, 459 were released on parole to parents and relatives; released on parole to others than relatives, 73; boarded out, 131; runaways, 125; released to hospitals, 39; transferred to other institutions, 29; released to funerals, 17; granted leave of absence, 2; released to court on habeas, 4.

The increasing size of our institution has given us many problems in our school

during the past year. The ideal class, for the type of boy received at this school, should be no larger than twenty-five in the grades, and fifteen in the special classes. It will be necessary to have more classrooms and extra teachers if the numbers continue to increase. It has been possible to adapt the school to meet, at least temporarily, the difficulties presented.

A new detail group has been formed, consisting of boys who, in the opinion of the psychiatrist and principal, have reached their school limit. It is planned to open one other sloyd room and hire one extra teacher. This will take care of the school problem boys, by dividing their time between manual work and personally supervised study.

The school test given by the psychiatrist has been revised and amended so that it will more nearly fit the type of boy received here.

During the year the Legislature made an appropriation for a brick cottage to house 50 boys. This is now in process of construction, and will be ready for occupancy in the early summer.

With an appropriation of \$244,600, plus \$10.00 brought forward from last year, the amount available for maintenance was \$244,610. Of this amount, \$239,270.95 was expended. Of the amount expended \$114,878.13 was for salaries, wages and labor; all other expenses, \$124,392.82. Net weekly per capita cost of maintenance computed on expense less sales and refunds from maintenance, \$8.745. Total receipts from all sources other than the State treasury, \$998.27. Net cost of maintenance to the Commonwealth, \$238,272.68. Ratio of daily average number of persons employed to daily average number of inmates, 1 to 4.7. The trustees estimate that \$264,300 will be necessary for maintenance in 1930.

For the coming year the trustees submit the following estimate, with request for a special appropriation covering the same:

1. Improvements to Power Plant	\$8,000 00
2. Assembly and Chapel Building	50,000 00
3. Brick cottage (30 small boys)	55,000 00
	<hr/> \$113,000 00

INDUSTRIAL SCHOOL FOR BOYS, SHIRLEY.

GEORGE P. CAMPBELL, *Superintendent.*
Trustees of Massachusetts Training Schools.

Total valuation of plant, real and personal, \$695,247.71. Normal capacity of plant, 290. Value per unit of capacity, \$2,397.40.

Provides custodial care and industrial training for boys over fifteen and under twenty-one years of age. Only boys under eighteen may be admitted.

Numbers.

	Males	Females	Total
Number Dec. 1, 1928	302	—	302
Admitted during year	485	—	485
Discharged during year	492	—	492
Remaining Nov. 30, 1929	295	—	295
Individuals under care during year	758	—	758
Daily average inmates during year	295	—	295
Daily average employees during year	58	20	78
Largest census during year	314	—	314
Smallest census during year	280	—	280

The list of causes of admission in the 355 cases committed during the year was as follows: assault, 4; assault and battery, 5; attempt to break and enter, 4; attempted larceny, 4; being a runaway, 7; being an idle and disorderly person, 1; breaking and entering, 35; breaking and entering and larceny, 56; carrying a dangerous weapon, 1; destroying property, 2; disturbing the peace, 3; drunkenness, 2; failure on parole, 16; indecent assault, 4; larceny, 83; lewdness, 1; receiving stolen goods, 2; robbery, 1; stubborn, disobedient and delinquent, 33; unlawful appropriation of auto, 63; unnatural act, 2; vagrancy, 5; violation of probation, 1; violating auto laws, 18; wilful injury to property, 2.

In addition to the above, 105 boys were returned from parole, 10 returned from leave of absence, 13 returned from hospitals and 2 from court. Three hundred thirty-nine (339) of those received during the year were committed by the courts. Of the boys thus committed, 286 had been in court before, and 59 had been inmates of other institutions. Twenty-six (26), or 7.3 per cent, of the 355 boys

received were foreign born, and 329, or 92.7 per cent, were born in the United States. Sixty-two (62), or 17.5 per cent, were of American parentage; 182, or 51 per cent, were of foreign born parents; while the parentage of 37 was unknown. The average length of stay of boys in the school was 9.7 months.

Of the 492 boys discharged or released during the year, 323 were paroled; returned cases re-paroled, 101; granted leave of absence, 10; transferred to Massachusetts Reformatory, 16; committed to Department for Defective Delinquents, at Bridgewater, 5; transferred to other institutions, not penal, 17; taken to court on habeas and not returned, 4; taken to court on habeas and returned later, 1; absent without leave, 14; died, 1.

The past year has been unusually satisfactory because of the high level of conduct maintained by the boys, with consequent profit to themselves, as well as the large number of tasks accomplished. The most important factor in this result has probably been the general stability and ability of the staff. The number of staff replacements has been materially lessened, tending to give us a group of people who, because they are acquainted with the boys and their problems, are more interested and more efficient than they could otherwise be.

The old Shaker buildings which were moved to new locations have all been remodeled and made into dwellings for employees, giving good quarters for three additional families.

A wing, 60 feet long by 31 feet wide, one and one-half stories and basement, is being built on the hospital at the Industrial School for Girls. A force of 12 to 35 boys from the Industrial School for Boys has been at work since last June on this project, and it will probably take to the end of February, 1930, to complete it.

With an appropriation of \$165,000 plus \$195.91 brought forward from balance of 1928, the amount available for maintenance was \$165,195.91. Of this amount \$161,632.89 was expended. Of the amount expended, \$74,420.05 was for salaries, wages and labor; all other expenses, \$87,212.84. Net weekly per capita cost of maintenance, computed on expense less sales and refunds from maintenance, \$10.460. Total receipts from all sources other than the State treasury, \$774.83. Net cost of maintenance to the Commonwealth, \$160,803.11. Ratio of daily average number of persons employed to daily average number of inmates, 1 to 3.7. The trustees estimate that \$171,448.75 will be necessary for maintenance in 1930.

INDUSTRIAL SCHOOL FOR GIRLS, LANCASTER.

MISS CATHARINE M. CAMPBELL, *Superintendent.*

Trustees of Massachusetts Training Schools.

Total valuation of plant, real and personal, \$514,337.32. Normal capacity of plant, 263. Value per unit of capacity, \$2,069.91. Founded in 1854 as a private institution. Taken over by the State in 1856.

Provides custodial care and industrial training for delinquent girls under seven-teen years of age at time of commitment.

Numbers.

	Males	Females	Total
Number Dec. 1, 1928	—	307	307
Admitted during year	—	298	298
Discharged during year	—	312	312
Remaining Nov. 30, 1929	—	293	293
Individuals under care during year	—	558	558
Daily average inmates during year	—	308	308
Daily average employees during year	26	53	79
Largest census during year	—	327	327
Smallest census during year	—	292	292

The list of causes of admission for 199 commitments of the 298 cases received at the school during the year is as follows: breaking and entering and larceny, 1; delinquent, 25; drunkenness, 2; false fire alarm, 1; fornication, 11; idle and disorderly, 4; larceny, 13; lewdness, 35; runaway, 21; stubborn, 78; transferred from Division of Child Guardianship, 4 (delinquent; stubborn; runaway, 2); vagrancy, 3; violation of the True Name Law, 1.

Of the above, 80, or 40 per cent, were of American parentage; 72, or 36 per cent, were of foreign parentage, and the parentage of 3 were unknown.

Recalled to the school, 49,—from court, 2; from running from the school, 6; from hospitals, 37; for a visit, 2; from visit home 2. In addition to the above 50

were returned from parole: viz., for medical care, 8; to await commitment to institutions, 6; for further training, 22; for violation of parole, 14.

The average length of stay in the school of all girls was 1 year, 4 months and 13 days.

Of the 312 girls released from the school during the year, 105 were released on parole to parents or relatives; on parole to parents to attend school, 17; on parole to other families for wages, 108; on parole to other families to attend school, 11; for a visit home, 2; from visit to Industrial School, 1; to attend court, 2; ran from Industrial School for Girls, 9; transferred to hospitals, 45; committed to school for feeble-minded, 1; committed to the department for female defective delinquents, 4; transferred to Reformatory for Women, 2; committed to hospital for insane, 5.

Academic work alone does not meet our needs. The re-education and restoration of our girls along social lines is the large problem presented. How may we best equip them that they may return to the community as a valued part of the community? The answer has not been found for the entire number. The majority, it is felt, must be trained sufficiently well that with the exception of the very young girls, they may be returned to the community as self-supporting.

Character formation, being a slow process, allows no short-cut, but rather evolves from and is the direct result of the training given and the ability of the child to respond. The close contact and personal attention to the individual girl by the superintendent and assistant superintendent, the care and intimate understanding of the matron and other workers in the cottage, the supervision of the physician and nurses, the invaluable spiritual help afforded by the several clergymen, and last, but by no means least, the untiring efforts of the principal and teachers, are the contributing factors in the accomplishment of this development.

The hospital is in process of reconstruction and enlargement, an appropriation of \$15,000 having been granted by the Legislature for this purpose. A wing, sixty by thirty-one feet, one and one-half stories in height, with basement, has been added to the hospital, which will provide offices for physicians and dentist, with treatment rooms on the lower level, and additional rooms for girls and officers on the first and second floors.

From an appropriation of \$155,100 plus \$3,330.54 brought forward from balance of 1928 a total of \$155,714.72 was expended for maintenance of this institution. Of the amount expended, \$69,269.88 was for salaries, wages and labor; all other expenses, \$86,444.84. Weekly per capita cost of maintenance, computed on expense less sales and refunds from maintenance, \$9.653. Total receipts from all sources other than the State treasury, \$822.15. Net cost of maintenance to the Commonwealth, \$179,511.02. Ratio of daily average number of persons employed to daily average number of inmates, 1 to 3.9. The Trustees estimate that \$162,570 will be necessary for maintenance in 1930.

SUPERVISION OF INSTITUTIONS.

In the matter of financial supervision, the Department examines and analyzes institution expenditures, keeping constantly in mind the function of the institution and the relation of its business to the care, education, and welfare of the inmates. The following tables are designed to show in detail the financial condition of each institution.

CAPACITY, POPULATION AND INVENTORY.

Table I gives in brief a statistical representation of the size and value of the five institutions under the supervision of the department. Part I deals with the number of persons served by the institutions. Part II deals with the value of the property.

TABLE I. — PART I. — *Capacities and Population of the Five Institutions for the Fiscal Year ending November 30, 1929.*

INSTITUTIONS	Normal Capacity	PRESENT ANY ONE TIME		DAILY AVERAGE NUMBER PRESENT DURING THE YEAR		
		Largest Number	Smallest Number	1929	1928	1927

Totals	2,710.87	\$215,468 93	\$4,145,556 94	\$975,923 55	\$5,336,949 42

III. EXPENDITURES.

Table III, divided into three parts, shows all expenditures of whatever nature on account of the several institutions. Part I deals with maintenance only. Part II exhibits outlays for special purposes, divided into four headings, namely, "land," "buildings," "furnishing and equipping," and "miscellaneous." Part III summarizes Parts I and II, and adds thereto the amounts expended from trust funds held by the Treasurer of the Commonwealth.

The table shows that \$1,740,250.73 was spent for maintenance, exclusive of expenditures for special purposes mentioned in Part II, which amounted to \$130,904.95.

In addition to the expenditures as above indicated, two institutions — Lyman School for Boys and Industrial School for Girls — have private trust funds which are administered for the benefit of inmates, but independently of the State's investment. The custody of each is vested in the state treasurer, whose duty it is to invest the same and to pay therefrom at the request of the trustees. Three of these trust funds — The Lyman Fund, the Lyman Trust Fund and the Lamb Fund — apply to Lyman School for Boys, while the Fay Fund, the Mary Lamb Fund and the Rogers Book Fund pertain to the Industrial School for Girls. From these sources a total of \$279.88 was expended during the year. By adding to the amounts given for trust funds (\$279.88) as shown in Part III, we find a grand total of \$1,871,435.56 expended on account of the five institutions.

TABLE III. — PART I. — *Expenditures of the Five Institutions for the Fiscal Year ending November 30, 1929.*

INSTITUTIONS	MAINTENANCE												Totals

V. PAYROLL.

The table shows the daily average number employed in 1928 and 1929, with the same average for the three-year period ending November 30, 1928. The same treatment is given the average monthly compensation and the weekly per capita cost. The total average number employed was 843.49, while for the three-year period preceding 1929 it was 816.60 and \$32.09 in 1928. The total average monthly compensation paid was \$398.87, as against \$376.17 in the preceding three-year period, and \$388.66 in 1928. Miscellaneous and incidental employment not entered upon the payrolls of the institutions does not appear in this tabulation.

TABLE V. — Payroll of the Five Institutions, showing Total Number employed for the Fiscal Year ending November 30, 1929.

INSTITUTIONS	AVERAGE NUMBER EMPLOYED		AVERAGE MONTHLY COMPENSATION		WEEKLY PER CAPITA COST		NUMBER OF INMATES TO ONE EMPLOYEE	
	1929	1928	1929	1928	1929	1928	1929	1928

THE COUNTY TRAINING SCHOOLS.

Under the provisions of General Laws, chapter 77, section 2, the five county training schools for truants and habitual school offenders are subject to the visitation of this Department, which is required to report thereon in its annual report. The names of the schools and of the Superintendents are as follows:

Essex County Training School, Lawrence, W. Grant Fancher.
Hampden County Training School, Springfield (Feeding Hills), Clifford M. Granger.
Middlesex County Training School, North Chelmsford, Charles G. Hoyt.
Norfolk, Bristol and Plymouth Union Training School, Walpole, James H. Craig.
Worcester County Training School, Oakdale (West Boylston), Alton W. Peirce.

Table I shows the trend of population in the County Training Schools during the past 5 years.

TABLE I. — *County Training Schools — Average number in Schools during the Years 1925-1929.*

	1925	1926	1927	1928	1929
Essex County Training School	98.5	93.6	96.9	97.4	81.40
Hampden County Training School	46.0	42.0	46.0	44.00	49.00
Middlesex County Training School	86.2	94.2	95.7	89.13	94.74
Norfolk, Bristol and Plymouth Union Training School	29.6	26.0	28.0	30.91	29.00
Worcester County Training School	40.3	42.6	38.2	34.24	38.46
Totals	300.6	298.4	304.8	295.68	292.60

Table II shows the numbers and the movement of the population in these institutions for the fiscal year ending December 31, 1929, and also the average weekly per capita cost of maintenance, \$12.09, subtracting all receipts from private sources.

As will be seen from Table II there were 484 children in the five schools during 1929. The year opened with 284. In the succeeding twelve months 200 were admitted and 183 were discharged, leaving 301.

The average age of the children at the time of their admittance was thirteen years, six months, twenty-one days. Every child must be discharged, by requirements of the statute, upon reaching the age of sixteen.

TABLE II. — *County Training Schools—Number and Movement of Population.*

SCHOOL	NUMBER IN SCHOOL DURING THE YEAR					Main- tenance of Schools (Average Weekly per Capita Cost)

LICENSING OF BOARDING HOMES FOR AGED PERSONS.

(General Laws, Chapter 121, Section 22A. Inserted by Acts of 1929, Chapter 305.¹)

FRANCIS BARDWELL, *Supervisor.*

Under the law to license boarding homes for aged persons, which went into effect May 10, 1929, the Department has received applications and followed up with investigation. From May 10, 1929, to November 30, 1929, 159 applications were received as listed below:

Boston Proper, 3 Greater Boston: Allston, 1 Ashmont, 1 Brighton, 3 Dorchester, 9 East Boston, 1 Hyde Park, 1	Jamaica Plain, 1 Mattapan, 3 Roxbury, 6 West Roxbury, 4 Abington, 1 Arlington, 3 Athol, 1 Belmont, 2	Berkley, 1 Braintree, 2 Brockton, 3 Brookline, 8 Cambridge, 7 Cohasset, 1 Dalton, 1 Everett, 1	Fairhaven, 2 Fitchburg, 1 Framingham, 3 Grafton, 1 Hanson, 1 Haverhill, 3 Hingham Center, 1 Hopkinton, 1 Holbrook, 1
---	---	---	--

Lexington, 2
Lowell, 4
Lynn, 6
Malden, 3
Marlborough, 1
Marblehead, 1
Medford, 2
Melrose, 3
Methuen, 1
Milton, 1
Natick, 1

New Bedford, 2
Newburyport, 2
Newton, 6
Newton Center, 2
Newtonville, 3
North Andover, 1
Northboro, 1
Peabody, 3
Pittsfield, 1
Quincy, 1
Reading, 1

Revere, 1
Rockport, 1
Somerville, 2
Springfield, 4
Stockbridge, 1
South Weymouth, 1
Sudbury, 1
Swampscott, 3
Wakefield, 1
Waltham, 4
Watertown, 4

Westborough, 1
West Concord, 1
West Lynn, 1
Westdale, 1
Westfield, 1
Whitman, 1
Winchester, 1
Winthrop, 1
Wollaston, 1

The number of licenses granted during this period of time is 25, and the premises are located in the following cities and towns:

Boston Proper, 1
Greater Boston:
Brighton, 1
Dorchester, 1

Mattapan, 1
Roxbury, 1
West Roxbury, 2
Braintree, 2

Brookline, 1
Cambridge, 3
Hingham Center, 1
Newton, 1

Newtonville, 1
Revere, 1
Watertown, 3
Winchester, 1

The number of investigations made during this period of time is 157.

It is the policy of the Department to work with the local authorities, securing reports of the fitness of the premises as to the fire protection ordinances and compliance with the local zoning laws. References are required from all applicants and preferably from visiting physicians, or individuals who have had relatives as patients.

The Department has insisted on applications from all boarding homes where three patients sixty years of age or over are in residence; this, in many cases, in spite of the fact that a majority of the patients may be under that age.

The Department has established the policy that at least two exits must exist from all floors above the ground floor, and it seems there should be a policy providing that no helpless patients be housed above the second story.

There have been no contract cases allowed by the department, nor have any applications for this type of care been presented.

It is evident that this new law will do away completely with this type of care.

For those licenses already granted and applications received the prices for board and care begin at \$8 and run to \$75 a week.

It is the intention of the Department to have lists of the licensed homes both as to location and prices charged. While the Department makes no guarantee as to these homes, this index should prove of value to individuals seeking homes for aged relatives or friends.

SUPERVISION OF THE SETTLED POOR RELIEVED OR SUPPORTED BY CITIES AND TOWNS.

THE CITY AND TOWN POOR.

General Laws, chapter 117, sections 3, 36, 37 and 38, and chapter 121, section 16, provide that the Department of Public Welfare may visit and inspect all places where city or town poor are supported in families, and require the Department to visit, at least once a year, not only all children who are maintained by the Commonwealth, but all minor children who are supported at the expense of any city or town. Children illegally retained in city or town infirmaries must be removed therefrom and placed at board at the expense of the city or town concerned.

THE SETTLED ADULT POOR PROVIDED FOR IN FAMILIES.

Of the 262 adult persons reported by local authorities as fully supported in families on January 1, 1929, 22 had died and 29 had been removed before visits could be made. The remaining 211 — 113 men and 98 women — were all visited and reported on by the department's agents. They were supported by 107 cities and towns as follows:

Abington, 5
Acushnet, 4
Agawam, 1
Amherst, 3
Arlington, 1
Attleboro, 2
Belchertown, 3
Berlin, 1

Gardner, 1
Gay Head, 1
Gill, 3
Goshen, 1
Great Barrington, 11
Halifax, 1

Hanover, 1	Merrimac, 3	Raynham, 3	Wellesley, 2
Hardwick, 1	Middleborough, 6	Reading, 2	Wellfleet, 3
Haverhill, 1	Millbury, 2	Rehoboth, 5	West Stockbridge, 2
Hawley, 1	Millville, 3	Revere, 8	West Tisbury, 1
Heath, 2	Needham, 5	Rowley, 1	Westford, 1
Hingham, 1	New Marlborough, 2	Royalston, 3	Westport, 1
Holbrook, 1	New Salem, 1	Russell, 1	Weymouth, 1
Lakeville, 2	North Attleborough, 1	Rutland, 1	Whately, 1
Lawrence, 1	Northborough, 3	Sheffield, 4	Whitman, 8
Lee, 3	Norton, 4	Shrewsbury, 1	Wilbraham, 2
Leyden, 1	Norwood, 4	Southwick, 1	Williamstown, 1
Ludlow, 2	Oak Bluffs, 1	Stockbridge, 1	Winchester, 7
Lunenburg, 2	Orange, 4	Stoughton, 1	Winthrop, 6
Lynn, 2	Otis, 3	Topsfield, 4	Woburn, 5
Malden, 1	Pepperell, 1	Walpole, 6	Yarmouth, 2
Marlborough, 5	Petersham, 1	Wareham, 1	
Medfield, 2	Pittsfield, 1	Watertown, 4	
Melrose, 3	Quincy, 1	Webster, 1	

Their ages were as follows: five between 30 and 40; seven between 40 and 50; twenty-two between 50 and 60; thirty-three between 60 and 70; ninety-two between 70 and 80; forty-seven between 80 and 90; four between 90 and 100; one between 100 and 110.

For their support there was paid in three cases from \$2 to \$3 per week; in ten cases from \$3 to \$4 per week; and in one hundred ninety-seven cases — mostly of old and feeble persons — the rate varied from \$4 to \$21 per week according to the amount of care required. In one case the person was self-supporting.

Of the whole number, 97 were reported to be in good or fairly good physical condition and 188 in good or fairly good mental condition. In all but four cases they were apparently receiving good care, and these cases were brought to the attention of the members of the local board. There were 49 able to do light work either in the house or about the premises. In 170 cases, according to the reports, the members of the local boards of public welfare complied with the law requiring them to visit these persons at least once in every six months; in 14 cases they were visited once during the year; in 18 cases they were not visited at all; and in 9 cases no record of visit could be found.

DEPENDENT MINOR CHILDREN WITH SETTLEMENT PROVIDED FOR IN INFIRMARIES.

Visits were made to 128 children — 57 boys and 71 girls — reported to be cared for by the following cities and towns in their infirmaries:

Boston, 85	Gardner, 1	New Bedford, 2	Taunton, 2
Charlton, 1	Holyoke, 3	Northampton, 2	Westford, 1
East Bridgewater, 3	Lowell, 3	Oxford, 3	Worcester, 3
Fall River, 11	Medford, 2	Springfield, 6	

In addition to this number 84 had been removed from the infirmaries before the time of visitation. Of the number visited, 88 were so defective in either mind or body as to make their retention in an infirmary desirable.

DEPENDENT MINOR CHILDREN WITH SETTLEMENT PROVIDED FOR OUTSIDE INFIRMARIES.

As shown by the department's visitation of the 1,265 children reported by the authorities as fully supported outside the infirmaries on January 1, 1929, and July 1, 1929, 250 had been removed before visits could be made, 3 had died, and 24 were supporting themselves. The remaining 988 — 531 boys and 457 girls — were supported by the 91 cities and towns as follows:

Abington, 3	Buckland, 1	Fitchburg, 14	Milford, 3
Acton, 1	Cambridge, 13	Framingham, 1	Millbury, 1
Adams, 3	Chelsea, 2	Georgetown, 1	Milton, 1
Agawam, 1	Chicopee, 6	Gloucester, 1	Montague, 4
Andover, 5	Colrain, 2	Grafton, 1	Natick, 6
Arlington, 4	Concord, 3	Greenfield, 1	Needham, 2
Athol, 1	Dalton, 1	Hopkinton, 2	New Bedford, 97
Attleboro, 8	Danvers, 3	Lawrence, 20	Newburyport, 4
Barre, 2	Dartmouth, 1	Lee, 1	Newton, 1
Belmont, 1	Deerfield, 2	Lincoln, 3	North Andover, 4
Bernardston, 4	Dracut, 3	Lynn, 37	North Brookfield, 2
Beverly, 10	Dudley, 1	Malden, 1	North Reading, 1
Billerica, 2	Easthampton, 1	Marblehead, 4	Norton, 1
Boston, 700	Enfield, 1	Maynard, 1	Norwood, 6
Braintree, 7	Erving, 3	Medford, 3	Palmer, 4
Brockton, 17	Everett, 3	Merrimac, 2	Petersham, 1
Brookline, 2	Fairhaven, 2	Middleborough, 5	Quincy, 11

Rochester, 10
Rockland, 9
Royal-ton, 5
Russell, 2
S.lem, 26
S. li-bury, 2

Saugus, 1
Somerville, 7
Southbridge, 14
Springfield, 9
Stockbridge, 1
Taunton, 8

Wareham, 3
Watertown, 7

Wellfleet, 2
West Springfield, 1
Westborough, 2

Westfield, 3
Whitman, 2
Williamsburg, 3
Winchendon, 2
Worcester, 79
Total, 988

Of the whole number 23 were cared for and treated in hospitals and institutions. There were 752 who attended school, and 145 who did more or less work about the house. Of the whole number, 953 were in good or fairly good physical condition, and 941 in good or fairly good mental condition. The price of board varies from \$1.75 to \$7 per week. These children were found to be well cared for with a few exceptions, which have been brought to the attention of the local boards of public welfare.

THE PENALTY INCURRED BY CERTAIN CITIES AND TOWNS FOR FAILURE TO MAKE THEIR RETURNS OF POOR RELIEF DURING THE MONTH OF APRIL, 1929.

Under sections 32 to 35 of chapter 117 of the General Laws, the department reported to the Treasurer of the Commonwealth the names of the cities and towns which failed to make their returns of poor relief during the month of April, 1929, together with the amount of penalty incurred in each instance as follows: Auburn, \$160; Barre, \$14; Belchertown, \$5; Buckland, \$15; Dana, \$344; Dartmouth, \$8; Egremont, \$10; Erving, \$7; Freetown, \$19; Gay Head, \$15; Granville, \$9; Hanover, \$1; Hopkinton, \$9; Lee, \$21; Longmeadow, \$6; Lowell, \$35; Lynnfield, \$23; Montgomery, \$9; Nahant, \$2; New Braintree, \$15; Palmer, \$2; Princeton, \$192; Rowley, \$6; Rutland, \$1; Salisbury, \$1; Sandisfield, \$15; Sandwich, \$6; Shrewsbury, \$7; Sutton, \$1; Swansea, \$3; Topsfield, \$1; Tyngsborough, \$6; Uxbridge, \$19; Williamsburg, \$8; Wilmington, \$20.

RECOMMENDATIONS FOR LEGISLATION.

The Commissioner of Public Welfare made four recommendations for legislation for 1930. These recommendations were forwarded to the Secretary of the Commonwealth on December 4, 1929, in accordance with the provisions of section 33 of chapter 30 of the General Laws, as amended by section 43 of chapter 362 of the Acts of 1923. The recommendations were as follows:

1. TO REPEAL THE WIFE-SETTLEMENT LAW.

I recommend the repeal of the wife-settlement law, so called, section 12 of chapter 122 of the General Laws. The wife-settlement law is one of several provisions under which the State gives aid in the home. Historically it was one of the first of such provisions, but the general substitution of adequate aid at home instead of almshouse care in this State have made the old law no longer necessary. Last year the number of cases receiving aid under the wife-settlement law was 587, and \$13,116.90 was given in aid under it. The same aid could better be given under the temporary aid law, section 18 of chapter 117 of the General Laws. No different result would be reached; the State would continue to approve the same claims of cities and towns and for the same amounts, but the process would be simpler. This complicated statute and this particular form of notice would be eliminated.

The wife-settlement law was enacted in 1855, at a time when the method of relieving poverty by the State was to send poor persons to the state almshouses, if they had not acquired by length of residence or otherwise a legal settlement in a city or town. The wife-settlement law, to prevent the breaking up of families, provided that if a man who had no legal settlement was in need, and his wife, also in need, had a legal settlement in a city or town, he could be aided by the town of her settlement and need not be sent to a state almshouse. Today the situation has entirely changed. The state almshouses have been abolished. Poor persons are no longer sent to state institutions for reasons of poverty alone, but are given cash aid under the other provisions of law and are aided at home. The need for a separate law to cover husbands in cases where the wife has a legal settlement has ceased to exist.

2. TO PROVIDE FOR ANNUAL REPORTS OF CHARITABLE TRUSTS.

Such charitable trusts as are incorporated are required to make an annual financial report to the Department under the provisions of section 12 of chapter 180 of the General Laws. Certain charitable trusts, when the funds are given or be-

queathed to a town, must make an annual report to the town. There is just as great a need for an annual public report of every charitable trust, whether incorporated or not. Such trusts as are incorporated secure a large degree of protection from the annual report which is made to this Department. The public looks to this Department for protection against the improper solicitation of funds and the improper use of charitable funds. If the trust happens to be one which is not incorporated and is not concerned with funds which are given to a town, no public report is made and the public departments exercise no regular supervision. I recommend that all charitable trusts be required to make a report similar to the one now required of charitable corporations.

3. FOR THE REGULATION OF FOREIGN CHARITABLE CORPORATIONS.

Foreign charitable corporations may now engage in activities in Massachusetts without being subject to the provisions of law which govern domestic charitable corporations. The public needs as much protection in regard to foreign charitable corporations as it does in regard to domestic charitable corporations. The laws should, in our opinion, be amended to require a foreign charitable corporation to file with this Department a copy of its charter authority and to make the annual report which is required of a domestic charitable corporation by chapter 180, section 12, of the General Laws.

4. TO PREVENT THE DOUBLE PAYMENT TO SCHOOL COMMITTEES FOR TRANSPORTATION OF CHILDREN UNDER THE CARE OF THE DIVISION OF CHILD GUARDIANSHIP.

When section 7 of chapter 76 of the General Laws was last amended in 1921, chapter 272, the rate of tuition in the public schools for children placed by the State or by the city of Boston was changed from 75 cents per week to a rate based upon the "expenditure per pupil for support exclusive of general control." This expenditure per pupil for support includes the cost of transportation. Another section of the same chapter 76, section 8, provides that the State and the city of Boston shall also pay for transportation in addition to tuition. Inasmuch as the transportation charge is now included, as above stated, in the rate for tuition, it is an injustice for the State and the city of Boston to have to pay separately for transportation. It is a double payment for the same item of expense. I recommend that section 8, relating to transportation, be repealed.

LICENSING OF BOARDING HOMES FOR AGED PERSONS.

A bill to license boarding homes for aged persons was recommended by the Commissioner personally in January, 1929, for the reasons given below, and it was enacted on May 10, 1929.

"A tragedy which happened to twenty elderly people who were left stranded in the Cooper Homestead in December shows the necessity for this legislation. Homes of this sort may now operate with no state regulation. They may and do take all the money that aged people can get together as an admission fee, promising life care, and then they may use it, as Mrs. Cooper did, and go into bankruptcy, leaving the old people destitute and facing the poorhouse.

"The bill imposes upon the Department of Public Welfare the duty of licensing, visiting and inspecting every boarding home in which three or more old persons are cared for. State supervision would mean the thorough investigation of the financial soundness of each boarding home and the character of its management, an annual financial report, frequent inspections, a report whenever any one is admitted for life care, and insistence upon a reasonable security for life contracts.

"The bill provides that no such life contract or contract for more than five years can be entered into without depositing security with the State Treasurer.

"The essential difficulty with the situation about these unincorporated and unsupervised homes is that the old people are making their contracts with an individual who is operating a private business and not with an incorporated home for the aged. An incorporated home for the aged can carry out its agreement to care for people for life, because it has an endowment, it has an annual subscription list, it has a responsible Board of Directors, and it has supervision. The proposed bill exempts from its provisions incorporated Homes for the Aged, because these incorporated homes are already under the supervision of the Department of Public Welfare."

LAWS AFFECTING THE DEPARTMENT PASSED BY THE LEGISLATURE OF 1929.

CHAPTER 146. — AN ACT MAKING APPROPRIATIONS.

Item 522a. Appropriation for an investigation and survey to ascertain the number of crippled children in the community who are not receiving the benefit of treatment at the Massachusetts Hospital School, at a cost not to exceed ten thousand dollars, of which amount five thousand dollars is hereby appropriated in anticipation of a further sum to be appropriated in nineteen hundred and thirty.

\$5,000.00

CHAPTER 221. — AN ACT RELATIVE TO CONSENT AND NOTICE UPON PETITIONS FOR ADOPTION OF CHILDREN.

SECTION 1. Chapter two hundred and ten of the General Laws is hereby amended by striking out section two and inserting in place thereof the following: —

Section 2. A decree for such adoption shall not be made, except as hereinafter provided, without the written consent of the child, if above the age of fourteen; of her husband, if she is a married woman; of the lawful parents or surviving parent; of the mother only of the child, if illegitimate; or of the person substituted for any of the above named by this chapter. Illegitimacy shall in no case be expressly averred upon the record. A person whose consent is hereby required shall not thereby be debarred from being the adopting parent. If the child has been previously adopted, a subsequent decree of adoption of the child shall not be made without the written consent of the previous adopting parents or parent surviving, nor unless notice of the subsequent petition for adoption has been given to the persons whose consent to the original adoption was required under this section; but such subsequent decree may be made without the consent of such persons. Notice of any petition for adoption shall be given to the guardian of the child, if any.

SECTION 2. Said chapter two hundred and ten is hereby further amended by striking out section four and inserting in place thereof the following: — *Section 4.* If the written consent required by the two preceding sections is not submitted to the court with the petition, the court shall order notice by personal service upon the parties of an order of notice, in such form as shall be prescribed under section thirty of chapter two hundred and fifteen, or, if the parties are not found within this commonwealth, by publication of said order of notice once in each of three successive weeks in such newspaper as the court orders, the last publication to be seven days at least before the time appointed for the hearing, and the court may require additional notice and consent. But if such child is of unknown parentage and is a foundling, publication as herein set forth shall not be required; but notice of the petition shall be given to the department of public welfare.

SECTION 3. This act shall take effect on September first in the current year. [Approved April 15, 1929.]

CHAPTER 305. — AN ACT RELATIVE TO BOARDING HOMES FOR AGED PERSONS AND TO THE LICENSING AND SUPERVISION OF THE SAME BY THE DEPARTMENT OF PUBLIC WELFARE.

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Chapter one hundred and twenty-one of the General Laws is hereby amended by inserting after section twenty-two, under the title "BOARDING HOMES FOR AGED PERSONS," the following new section: — *Section 22A.* The department may license any suitable person to maintain a boarding home for aged persons, may prescribe the conditions under which such a license may be granted and may make, and from time to time alter and amend, rules and regulations for the government of such homes. Every license issued under authority of this section shall be for the term of two years, but may be revoked by the department at any time for cause. The department shall have supervision of all such homes and may visit and inspect the same at any time and examine their accounts. Any person, other than a charitable corporation hereinafter referred to, proposing to enter into a contract to provide care incident to advanced age, for life or for more than five

years, for any person over sixty years of age and not a member of his immediate family shall report that fact immediately to the department and shall, before entering into or receiving any consideration under such contract, deposit with the state treasurer a bond in a sum and in an amount satisfactory to the department, with sureties approved by the state treasurer, or, in lieu thereof, such amount of money or securities as the department determines, as security for the proper care as aforesaid of such person. Any person who maintains a boarding home for aged persons without holding a license hereunder, and any person licensed hereunder who violates any provision hereof, shall for a first offence be punished by a fine of not more than five hundred dollars and for each subsequent offence by imprisonment for not more than two years. Whoever, under his own name or under any other name or style, except a charitable corporation duly incorporated under the laws of this commonwealth, maintains a home in which three or more persons over the age of sixty years and not members of his immediate family are, for hire, gain or reward, by contract as aforesaid or otherwise, provided with care incident to advanced age shall be deemed to maintain a boarding home for aged persons for the purposes hereof. [Approved May 10, 1929.]

CHAPTER 12. — RESOLVE PROVIDING FOR AN INVESTIGATION BY A SPECIAL UNPAID COMMISSION OF THE LAWS RELATIVE TO DEPENDENT, DELINQUENT AND NEGLECTED CHILDREN AND OTHER CHILDREN REQUIRING SPECIAL CARE.

Resolved, That an unpaid special commission, consisting of the commissioner of public welfare, the commission of mental diseases and the deputy probation commissioner and two other members to be appointed by the governor, is hereby established for the purpose of investigating the laws relative to dependent, delinquent and neglected children and children otherwise requiring special care, and after completing said investigation, but not later than the first Wednesday in December in the current year, to report to the general court by filing with the clerk of the senate the results thereof, with its recommendations, if any, as to what changes it deems necessary in the procedure relative thereto, together with drafts of legislation necessary to carry such recommendations into effect.

For the purpose of this resolve, said commission may expend out of such amounts as may be appropriated by the general court such sums as may be approved by the governor and council. [Approved April 2, 1929.]

PAST MEMBERS OF THE STATE BOARD OF CHARITY.

In this Department the service of unpaid Board members has always been of great value. It is the custom to record this service in the annual report.

Date of Original Appointment	Name	Residence	Retired

PART II.

PRIVATE CHARITABLE CORPORATIONS.

RICHARD K. CONANT, *Commissioner.*

Supervisors.

Miss CAROLINE J. COOK, *Chief.*

Miss FLORENCE G. DICKSON.

Miss ALICE M. MCINTIRE.

Government supervision of private charitable corporations is provided in three legislative enactments, the first of which requires the Department of Public Welfare to investigate all applications for charitable charters, while the second and third call for annual inspection and annual reporting. In the following pages of this part of the report the functions of the Department and the year's work under these several statutes are explained. This statement is followed by a tabulation of some of the essential figures showing the financial condition and the number of persons aided by the various charities.

Investigation of Charitable Organizations Seeking Incorporation.

During the year ending November 30, 1929, 57 applications for charters have been referred to this Department by the Secretary of the Commonwealth for investigation under General Laws, chapter 180, section 6. In 4 cases the applications were withdrawn from this department before the hearing. Four (4) cases are pending action of this department at end of the year. This department has investigated, given hearings and reported on 55 applications, including 6 received prior to the beginning of the year.

Fifty-five (55) applications as listed below, have been acted upon by the Secretary of the Commonwealth.

Adams Lodge, No. 1335, Benevolent and Protective Order of Elks.
 Alumnae Association of Simmons College
 Association of Baptists for Evangelism in the Orient, Inc.
 Belmont Masonic Association
 Brockton Post No. 35, The American Legion, Department of Massachusetts, Inc.
 Cambridge Community Center, Inc.
 Camp Chebacco, Inc.
 Camp Rotary, Inc., of Lynn, Mass.
 Chelsea Post No. 34, Inc., American Legion
 Chevra Thilim & Gemilath Chesed Association, Inc. of Chelsea
 Clara C. Hyams Fund, Inc.
 Commonwealth Benevolent Association
 Community Club of East Natick, Inc.
 Concord Nursery School
 Crosscup-Pishon Post, Inc. American Legion
 Disabled Ex-Service Men's Exchange, Inc.
 District Nursing Association of Barnstable, Yarmouth and Dennis, The
 Easthampton Home for Aged Women
 East Natick Improvement Association
 Everett Square and Compass Club, Inc.
 Gesang Verein Eintracht, Inc.
 Greek Women's Aid Society of Lynn, Mass.
 Hamblin L. Hovey Institute, Inc.
 Haverhill Hebrew Sheltering Home, Inc.
 Hebrew Free Loan Society, Inc., of Worcester
 Hudson Community Health Association, Incorporated
 James A. Roche Club
 Jewish Big Brother Association of Boston
 John A. Boyd Camp Building Association, Inc.
 Jonas Willis Parmenter Rest Home, Inc.
 Junior League of Fall River, Inc.

Kappa Gamma Psi Fraternity of America, Inc.
 Kuo Min Tang Association
 Ladies Hebrew Free Loan Society
 Lincoln Aid Association
 Lincoln Social and Fraternal Club of Brockton, Mass., Inc.
 Lowell Association for the Blind, Inc.
 Lowell Greek Charitable Association, Inc., The
 Lynn Association for the Blind, Inc.
 Master Fishermen's Charitable Association
 National Braille Press, Inc.
 New England Deaconess Hospital
 Northampton Visiting Nursing Association
 Pan Cretan Society Minos Inc.
 Polish Community House Association, Inc.
 Polish Liberty Club, Inc.
 Rockland Post 147, American Legion Building Association, Inc.
 Solomon M. Hyams Fund, Inc.
 South Warren Community, Incorporated, The
 Tajak Sanctorum No. 151, Ancient Mystic Order of Samaritans, Inc.
 Walker Missionary Homes, Inc.
 Webster District Hospital
 West Springfield Veterans of Foreign Wars Home Association
 William J. Gould Associates, Inc., The
 Women's Palestine Agricultural Association Inc. (The Palagrass)

Fifty-three (53) of these applications have been acted upon and charters issued. Charters have been withheld from the following:

Kuo Min Tang Association
 Polish Community House Association, Inc.

Inspection of Charitable Corporations.

General Laws, chapter 121, section 7, requires the Department of Public Welfare, upon the request or with the consent of a charitable corporation, to make annual inspection or investigation of such corporation.

Three hundred and eight (308) inspections have been made during the past year, involving numerous conferences with directors and many visits to institutions.

There have been 523 inquiries in regard to particular charities and general matters connected with the field of private charity.

Number and Classification of Incorporated Charities in Massachusetts.

Of the 1,145 charitable corporations which made returns to this department during 1929, 121 are homes for the aged; 133 are child-helping agencies; 250 are hospitals or other institutions for aiding the sick; 124 are agencies giving family aid; and 169 are organizations doing community, neighborhood or club work. The remaining 348 corporations form a miscellaneous group chiefly civic or eleemosynary in their nature.

Annual Reports of Charitable Corporations.

General Laws, chapter 180, section 12, provides that every charitable corporation must make to this department an annual financial return on or before the first day of November in each year, and further provides that if any corporation fails for two successive years to make the report, the Supreme Court may decree its dissolution. Figures from the financial reports of corporations for the last year are given on the following pages. The abstracts are arranged by towns in alphabetical order under each town.

An analysis of the returns made in 1929 shows the total property, real and personal, of all these charities to be \$287,348,069.45. Incumbrances on real estate came to but \$10,067,293.32. Subscriptions and donations brought in \$16,915,-826.77. Earnings and refunds, including receipts from beneficiaries, amounted to \$23,344,658.91. Interest, dividends, annuities and rentals brought in \$9,023,121.57. Legacies were received to the amount of \$9,955,443.81; of this sum \$4,877,874.90 was unrestricted. The current receipts were \$52,162,287.95. The current ex-

penditures were \$49,138,283.07 of which \$16,186,683.90 was paid for salaries and wages. The agencies reported 20,259 paid employees.

Endorsement of Private Charitable Organizations.

The Department of Public Welfare endorses no private charitable organization or agency. This rule is absolute, regardless of the known standing of any such society. Inspection and the publication of the annual return in this volume do not mean approval; on the contrary, inspection may mean the discovery of conditions calling for condemnation. No agency is warranted, therefore, in using the fact of inspection in such manner as to lead the public to believe that the department has approved or in any sense commends its work.

PART III.

THE CITY AND TOWN INFIRMARIES

AND

STATISTICS OF POOR RELIEF.

FRANCIS BARDWELL, *Inspector of Infirmaries.*

Laws Relating to Infirmaries.

(*General Laws, Chapter 47, as amended by Chapter 203, Acts of 1927.*)

For the information of boards of public welfare, superintendents of infirmaries and others concerned, certain laws relating to infirmaries are here summarized.

The Department of Public Welfare is required to visit annually all city and town infirmaries, and to include in its annual report a statement of their condition and management, with its suggestions and recommendations relative thereto. (General Laws, ch. 121, sect. 7.)

The master of every infirmary must keep a register, in the form prescribed by the Department of Public Welfare, of the names of the persons received or committed, the cities or towns to which they belong, and the dates of their reception and discharge. (General Laws, ch. 47, sect. 8.)

Every inmate of an infirmary able to work shall be kept diligently employed in labor. If he is idle and does not perform such reasonable task as is assigned, or if he is stubborn and disorderly, he shall be punished according to the orders and regulations established by the directors. (General Laws, ch. 117, sects. 21 and 22. See also opinion of Attorney-General given to State Board of Charity November 21, 1904.)

The only children who can be lawfully supported in a city or town infirmary for a period of more than two months are: (1) those who are so defective in body or mind as to make their retention in an infirmary desirable; (2) those who are under two years of age; and (3) those who are under three years of age, with mothers who are infirmary inmates and suitable persons to aid in taking care of them. In cases of failure of boards of public welfare to remove children illegally in infirmaries, the Department of Public Welfare is required to remove them and provide for them otherwise, at the expense of the city or town concerned. (General Laws, ch. 117, sects. 36-38.)

Provision is made that tramps and vagrants, as well as criminals, shall be confined in separate and distinct quarters in all infirmaries and shall not be permitted to associate or communicate with other inmates. It should be noted also that tramps and vagrants, if physically able, shall perform labor of some kind, and shall be lodged under conditions prescribed by the State Department of Public Health. (General Laws, ch. 117, sect. 20.)

The Department of Public Welfare is authorized to advise with and assist local boards of public welfare in preparation of plans for infirmary buildings. (General Laws, ch. 121, sect. 33.)

Inspection of Infirmaries.

As required by law every infirmary has been visited once by the department's Inspector. Seventeen (17) have been visited twice, 4 three times, and 1 four times. Conferences have been held with various municipal officers — mayors of cities, local boards of public welfare, and special committees — concerning matters of importance relative to the management and administration of infirmaries or for discussion of improvements or new construction. There are in Massachusetts 122 infirmaries which cared for 9,244 inmates during the past municipal year.

Infirmaries Closed.

The infirmary at Groton was closed and the inmates provided for at the Fitchburg infirmary.

Recommendations Made.

Charlton. — That there is still an urgent need for hospital accommodations not only because of the need of caring for those who suffer from chronic illness,

but to relieve present congestion, so that no one will be obliged to sleep above the second floor.

Dedham. — That additional rooms should be provided and suggestion that a hospital ward was needed.

Hingham. — The attention of the local board of public welfare was called to the condition of a man suffering from epilepsy and a recommendation made that the patient be committed to the state hospital at Monson.

Manchester. — That the Infirmary Register should be kept at the Infirmary.

Marlborough. — That a patient be examined to ascertain if he is suffering from tuberculosis and if this is found to be the case, asking for his transfer to a sanatorium.

Northbridge. — That the electricity for lighting be installed, even if it necessitated the maintenance of a small home plant as has been successfully tried at Barnstable and North Brookfield.

Quincy. — That considering the crowded condition of the infirmary and that several patients who should be cared for at the infirmary are boarded either at the State Infirmary or other infirmaries, that some plan should be undertaken either to increase the size of the present building or to build a new one. As the present wooden building has been built nearly, if not quite, fifty years; as rooms on the third floor are in almost constant use, it would seem advisable to consider the erection of a new building to suit the needs of a growing city and to take care of its increasing infirmary population.

Rockland. — That a woman inmate be examined with a view of having her committed to a hospital for the insane.

Springfield. — The presence of a child in residence at the infirmary for a period beyond the time allowed by law was called to the attention of the local department of public welfare and a request that this case be at once removed and placed.

Uxbridge. — That if possible plans be made so that an aged man now at the infirmary may be kept on, and in case he was not a settled case he might remain as a boarder by place of settlement.

Construction — New and Contemplated.

Attleboro. — No move has been made, either to erect a new infirmary or to renovate the present building.

Barnstable. — The addition of a new wing and complete renovation of the older building giving a total of 22 rooms with four bathrooms and two large sun rooms. Cost \$20,000.

Beverly. — Extensive alterations to provide a more conveniently planned institution with the heating plant removed from the building; repairs still in progress.

Dedham. — Extensive repairs are to be made.

Leominster. — With the exception of the central portion of the old building a complete demolition and the construction of two new wings, with four large sun rooms and a modern kitchen, increasing the inmate capacity to serve the city's needs for future housing. Cost \$43,100.

Malden. — Construction of a one-story brick building in process — probable date of completion, July, 1930.

Stoneham. — New construction providing two large sun parlors and general renovation of the bathrooms and sleeping rooms.

Webster. — Extensive remodelling with a new dining-room, a new laundry, a men's smoking room and additional sleeping quarters.

Although matters have not come to the decisive point as yet, it is probable that additional accommodations must be provided in the following infirmaries: Brockton, Holyoke, Lawrence, New Bedford, and Quincy. To this list might possibly be added Marlborough, where the capacity has been reached on several recent occasions, and Westfield, where a new house is needed.

It is pertinent for the Department to urgently recommend that in all infirmaries built of wood no inmate other than the able-bodied be housed above the second floor. It is hoped that in all future construction this point shall be kept in mind and if possible sleeping rooms for all inmates will not be planned above the second floor.

Improvements.

The following major improvements and repairs, other than those recorded above, have been made in the various infirmaries:

Adams, new floor coverings in dining-room, kitchen, and hall. Athol, new cement floor in laundry, kitchen completely renovated, floors painted, and complete renovation in three bedrooms and dining-room. Braintree, interior painting and papering, repairs to plumbing system. Brockton, addition to men's smoking room and furnishings for same at a cost of \$3,000. Billerica, barn shingled and new water pipe installed. Brookline, new piping for steam heating and plumbing. Cohasset, new heater. Chicopee, electric refrigerator, new bathtubs all over, buildings painted, inside painting and general repairs, at a cost of \$4,204.49. Charlton Home Farm Association, smoking room and porch (\$673.59), lightning rods, all buildings (\$475.00), general repairs (\$234.93), auto truck (\$700). Douglas, buildings painted. East Bridgewater, new roof on house. Falmouth, barn shingled, electric wiring and general repairs (\$250.12). Grafton, electric refrigerator. Haverhill, repairs and painting (\$1,000), three-box refrigerator with Frigidaire equipment (\$2,500), new water heater for laundry, new bath in nurses' quarters. Holyoke, general repairs, hay barn painted, steam pipes replaced, metal ceilings, etc. Ipswich, new piazza. Lynn, upstairs kitchen, office and dispensary renovated. Lowell, new rest house for men in out-patient department, new sun-porch women's hospital, improved plumbing in laundry, sun-porch men's hospital, new cement run-way to facilitate handling wheel-chair patients, 450 feet of new fire hose and three large extinguishers provided, radio for female ward. Lawrence, entire male department of infirmary painted, new entrance to female ward, improvements in nurses' quarters and lecture room for nurses arranged. Mansfield, renovation in warden's quarters, two new bedrooms planned. Manchester, cesspool and drainage (\$977). Methuen, electric refrigerator. Marblehead, buildings painted outside and in. Medford, men's smoking room renovated, linoleum on most of the floors downstairs. North Brookfield, connection made with Warren Electric Company, thus doing away with the individual plant. Milford, new oil heater (\$785), extensive improvements in the plumbing and general renovation at total cost of \$1,608.86. Middleboro, new heater given by the Trustees of the Pierce Fund (\$1,400), also, by the town, a new piazza and ordinary repairs. Natick, shingling barn. Northbridge, new engine for the water pump. North Adams, general renovation of house and barns at a cost of \$1,034.69. North Attleboro, new furnishing, cesspool and drain, eight rooms painted and repairs at barn. Nantucket, general repairs. North Andover, outside painting and shingling, general repairs (\$1,113.95). New Bedford, new granolithic walk from street to infirmary, hospital painted, new kitchen equipment. Pittsfield, interior renovations (\$437.18). Provincetown, new fire escape (\$300). Oxford, electric refrigerator. Quincy, new gas range, water laid on to men's smoking room, women's dining-room planned and furnished, general repairs costing \$1,000. Randolph, new screens, repairs to piazza, papering and painting at a cost of \$450, also a new refrigerator. Rockport, general exterior repairs and painting (\$891.59). Saugus, steam heat installed (\$1,025). South Hadley, new heaters installed. Spencer, new piazza, barn and sheds shingled. Stoughton, buildings painted and a new washing machine purchased (\$471.76). Salem, extensive exterior repairs and some rooms renovated. Sutton, new cattle linter and improvements in infirmary (\$1,000). Somerville, electric refrigerator, new fence about the property, new furniture, heating and plumbing repairs. Springfield, extensive repairs to the heating system and new fire escapes. Taunton, interior repairs amounting to \$992.52. Winchendon, new heater (\$700). Weymouth, new garage. Wakefield, new oil heater and chimney (\$1,319.94). Westford, new farm machinery. Worcester, installation of sprinkler system at a cost of \$9,559, two new bathrooms, fire pipe at a cost of \$712.07, additional farm machinery, tractors, etc., the total cost of improvements being \$16,820.74.

Infirmary Visitors.

The infirmary visitors are local residents, giving their services under the Commissioner's appointment. Those in office now are: Adams, Mrs. W. C. Plunkett; Amesbury, Mrs. George W. Crowther; Andover, Mrs. Frank L. Brigham; Athol, Miss Hattie M. French; Boston, Miss Theresa M. Lally; Charlton, Mrs. Edgar

W. Preble; Easthampton, Mrs. George L. Munn; Easton, Mrs. Myrtie A. Spooner; Fall River, Mrs. Joseph E. Barre, Mrs. Jonathan T. Lincoln and Mrs. Charles H. Warner; Falmouth, Mrs. Alfred F. Kelley; Gloucester, Mrs. J. E. Anderson; Greenfield, Mrs. Henry F. Nash; Holyoke, Mrs. John M. James; Lancaster, Miss Mary Belle Bailey; Lawrence, Mrs. Lewis A. Foye; Malden, Mrs. Harvey L. Boutwell, Mrs. Catherine A. Lovejoy and Mrs. Ellen Woolfson; Manchester, Mrs. Grace L. Porter; Marlborough, Mrs. L. H. Tourtellotte; Milton, Mrs. William H. Sias; Monson, Mrs. Herbert M. Smith; Montague, Mrs. Richard R. Lyman; Nantucket, Mrs. Josephine S. Brooks and Miss Ella F. Sylvia; Natick, Mrs. James E. White; Newburyport, Mrs. Frederick Tigh; Newton, Mrs. Winnifred W. Hills and Mrs. Arthur W. Chamberlain; North Adams, Mrs. Lida A. Kimball and Miss Ione Northrup; Northampton, Miss Clara C. Allen; North Attleborough, Mrs. George A. Livingston; Pittsfield, Miss Mary C. Galbraith and Miss Frances D. Robbins; Provincetown, Mrs. Ruth S. Snow; Randolph, Mrs. Daniel F. Flynn; Somerville, Mrs. Marguerite E. Kauler; Springfield, Mrs. Wendell S. Mowry and Mrs. Mildred T. Parsons; Ware, Mrs. Andrew Campion; Warren, Mrs. Edna Deland; Waltham, Mrs. Pryor Fulton; Westborough, Mrs. Andrew B. Adams; Winchendon, Mrs. Frank B. Spalter; Worcester, Miss Nellie E. Barrett and Mrs. Charles F. Darling.

Reports from Infirmaries.

Tabulated information relating to the various infirmaries follows. There has been a reorganization of the Charlton Town Farm Association, twenty-four towns now being united in this joint infirmary. A list of these towns will be found in the tabulation.

STATISTICS OF POOR RELIEF.

NUMBERS RELIEVED.

The following information covers public relief, whether rendered in institutions or outside, and aid rendered by all public agencies, whether State or local.

The tables given below are arranged to show numbers relieved and their analysis by age, sex and nativity. The tabulations are concluded by figures for cost of all relief.

Table I shows the number supported or relieved by the several cities and towns during the year beginning April 1, 1928, and ending March 31, 1929. All persons are included, regardless of settlement. The total number receiving aid in any form, exclusive of vagrants and wayfarers, was 149,523. Of this number, 12,358 were aided in institutions and 137,165 — the remainder — outside, either in private families or in their own homes. Of the persons aided in institutions, 8,100 were relieved in the various city and town infirmaries, leaving 4,258 who were cared for in other institutions. It should be noted that certain cities which have city hospitals have not reported persons aided therein under "poor relief." To include these would add approximately twenty-two thousand to the persons aided in "other institutions." Of the outside aid, 3,465 cases were aided in private families other than their own, while 133,700 were reported as having been aided in their own homes. This last figure comprises practically all city and town aid usually known as local public outdoor relief, including that under Chapter 118 of the General Laws.

There is an increase of 520 over the preceding year in the number aided in institutions, and an increase of 19,480 in the number aided outside.

Table II supplies the same data for persons aided or relieved by the Commonwealth as are shown in Table I for local relief. In addition to aid rendered directly by the Commonwealth, this table includes also all those cases included in Table I, in which the relief has been rendered by cities and towns in the first instance and reimbursed by the Commonwealth as required by law. This table shows 34,899 persons aided by the Commonwealth, an increase of 2,265 over 1928. Of this number, the aid in 30,214 cases was first rendered by the several cities and towns. The remaining 4,685 cases were aided by the Commonwealth; 3,559 of them at the State Infirmary; 224 in the Infirmary Ward at the State Farm; and 902 at the Massachusetts Hospital School.

Table III affords a rapid glance at the movement of population in the dependent group during the year under analysis. Thus it appears that 72,882 cases represented approximately the total number of persons receiving aid April 1, 1928. About 77 per cent of these were receiving relief locally. During the year 81,326 new cases were admitted to relief; 23 per cent of this figure were aided either directly or through reimbursement by the Commonwealth. The persons who passed out of care during that same period number 76,628; viz., city and town cases, 57,750; state cases, 18,878. Those in this total released by death number 2,641 and 2,738 persons were transferred. At the close of the year, therefore, the cities and towns had 61,559 persons in receipt of relief, and the Commonwealth had 16,021, making a total of 77,580.

Table IV begins classification of the whole number of persons aided, and shows the analysis by color, nativity and sex. Of the 154,208 persons so aided, 74,600 were males and 79,608 females. The colored races furnished only 3,477 of the whole number. The native born whites — 114,842 — number more than three times the foreign born of the white races, the 34,461 of this latter group representing a proportionate increase of 16 per cent over last year. The females of the total native born outnumber the males by only 1.8 per cent, while of the total foreign born the females outnumber the males by 24.4 per cent.

Table V gives a further interesting analysis of the native-born persons aided during the year classified by parent nativity.

The parents of 41,254 were both native; 50,869 were children of foreign-born parents; 22,317 were of parents one of whom was foreign born or unknown; while the nativity of parents in 3,879 cases remained unascertained. It appears from this table, therefore, that of the 154,208 persons receiving aid in Massachusetts in the year ending March 31, 1929, there were at least 85,878 who were either foreign born or were of the first generation in our citizenship.

By Table VI it appears that of the 154,208 cases aided, 15,174 were under five; 68,513 were under fifteen; 85,134, or 55 per cent, including the above, were under twenty; 51,327, or 33 per cent, were between twenty and sixty; and 16,306, or 10.5 per cent, were over that age. The ages of 1,444 were unknown.

Among the poor persons relieved are always a considerable number of mental defectives who for one reason or another have not been committed and are therefore not cared for in the special institutions, such as the asylums for the insane, maintained for that purpose. In regard to this class it is to be noted further that since no court has passed upon their mental condition, their classification here is made only because, in the opinion of the respective authorities making the returns, there is no doubt of their defect. Table VII affords a rough classification into three groups, according to the nature of the defect, and a division by sex. The total number thus cared for was 331, namely, 188 males and 143 females. Two hundred seventy-one (271) of these cases were relieved by the cities and towns; the remaining 60 having no settlement, were aided at the expense of the Commonwealth. One hundred sixty-one (161) of the whole number were classed as "insane," mostly the senile and mildly insane to be found in the infirmaries. This total includes 91 males and 70 females. One hundred twenty-four (124) were called "idiotic," namely, 67 males and 57 females. The "epileptics" totaled 46, of whom 30 were males and 16 were females.

Table VIII calls attention more pointedly to the sex and the nature of discharge from relief of those persons who passed out of aid during the year. Of the 76,628 cases so dismissed, 38,705 were males and 37,923 were females. Forty-seven per cent (47 per cent) or 36,468, were released to the care of relatives or friends. About 3.5 per cent, or 2,738, of the whole number were transferred to other institutions, while 45 per cent of the aggregate were discharged without relatives or friends or other authorities agreeing to look after them. The great majority in this last group were persons assisted through illness, after which they became self-supporting again.

As appears from Table IX the foreign born who were receiving public relief during the year numbered 35,009, or 22.6 per cent of the entire number of persons aided. This percentage is 8.8 per cent less than the proportion of foreign born in the population generally, — 31.4 per cent. Canada furnished 9,725 of this number; England and Wales, 2,190; Germany, 324; Ireland, 6,232; Italy, 4,618; Russia and Poland, 3,262; Scandinavia, 466; Scotland, 595; and all other countries, 7,597.

Table X shows the percentage of the various classes aided to the whole number relieved. Thus, of the 154,208 persons relieved, 77.37 per cent were settled cases, receiving their assistance out of local taxes; 22.63 per cent were unsettled, and though relieved by the respective cities and towns in the first instance in a majority of cases were ultimately aided out of the state tax. As to the place in which relief was given, 11.05 per cent of the total were aided in institutions, namely, 5.25 per cent in infirmaries, 3.04 per cent in state institutions; and 2.76 per cent in other institutions, mostly under private management. Outdoor relief, designated as aid "outside," was given in 88.95 per cent of all the cases. Most of these, namely 86.70 per cent, were relieved in their own homes. Aid was given in private families other than the recipient's own — mostly boarded cases — in 2.25 per cent instances. Percentages of age show that 56.36 per cent were minors, 32.13 per cent were between the ages of twenty-one and sixty, and 10.57 per cent were sixty or over. The ages of .94 per cent were unknown. Sexes differ slightly, males rating 48.38 per cent and females 51.62 per cent.

The number of colored persons was very small, totaling only 2.63 per cent.

By reason of thoroughgoing classification in the care of defectives, the percentage of those mentally deficient persons still cared for as poor relief cases is exceedingly small, and tends always to decrease. The mental condition of all the cases aided shows, on analysis, that 99.79 per cent were sane, .10 per cent were insane, .08 per cent were idiotic, and .03 per cent were epileptic. The proportion of sane persons in last year's returns was 99.77 per cent.

It is of further interest to view at a glance the numerical relationship to the whole population of the persons relieved at public expense as appears in Table XI, which exhibits the number of each class in every thousand of the population of the Com-

monwealth on a basis of the census of 1925. Thus it is shown that in each thousand of the population there were 37.21 indigent persons relieved at public expense. Of these 18.00 were males and 19.21 were females. The native born numbered 28.55 in the thousand; foreign born, 8.45; native born of foreign parentage, 12.27 and those of unknown nativity, .21. The proportion of vagrants reported was 2.1 in the thousand.

COST OF POOR RELIEF.

The funds laid out by the several cities and towns for all poor relief within their respective fiscal years are shown in Table XII. The aggregate is classified as "ordinary," or maintenance, and "extraordinary," or special. Together with the ordinary outlays are shown the receipts on account of maintenance, and the difference, set out under "net ordinary expenditures." The ordinary outlay is classified as expenses in institutions and outside. This subdivision follows the classifications in Table I regarding the nature and the place of aid. The grand total in Table XII shows that an aggregate of \$13,389,936.44 was laid out by the several cities and towns. Of this sum, \$12,582,359.43 was ordinary outlay, or maintenance; the remainder, or \$807,577.01, was expended for sundry improvements, all of it at the city and town infirmaries. Of the money expended for maintenance, \$2,301,061.49 was expended for infirmary care and \$881,280.14 for relief in other institutions. Care in private families took \$526,894.95, and relief in the recipients' own homes, i.e., outdoor poor relief, totaled \$8,151,546.66. The cost of administration, including salary and office expenses of the local public welfare boards, but exclusive of institution administration, came to \$721,576.19. The total receipts on account of ordinary expenditures were \$2,204,049.16 — classified as receipts on account of institutions, \$472,991.23; and all other, \$1,731,057.93. This latter portion of the receipts is made up mostly of reimbursements by cities and towns ultimately liable and from the state treasury is unsettled cases. Subtracting receipts leaves \$10,378,310.27 as the net ordinary outlay.

In Table XIII the analysis shown for cities and towns by Table XII is carried out for cases aided out of the State funds. Of the \$2,519,489.59 expended for this purpose, \$2,473,461.24 was on account of ordinary expenditures, laid out as follows: At the State Infirmary, \$501,556.53; at the State Farm, \$41,221.28; at the Massachusetts Hospital School, \$102,397.37, and all other expenditures outside of institutions, \$1,828,286.06. Extraordinary expenditures totaled \$46,028.35 — all expended for special improvements at the several institutions just enumerated. Inasmuch as it is impossible to trace institution expenditures to the separate individuals receiving the aid, the figures set out under the State tables of cost are arrived at by taking from net cost of maintenance that proportion which the average number relieved in the institution bears to the average inmate population of the institution.

In Table XIV State and local outlays are added, showing that of the \$13,705,376.87 expended for public poor relief, \$12,851,771.51 was for ordinary outlays, of which \$3,354,525.58 went for institutional relief and \$9,497,245.93 was for relief outside. The total of extraordinary expenditures was \$853,605.36.
